

## *An Astral Visit to the Great Hospital*

### *An Excerpt from My Second Encounter with an Angel by Sidney Schwartz with Rev. Carl R. Hewitt*

Around 1997, the subject of the “great hospital” again came up, when Carl took an astral trip to it. The first time was when Awan [the **Angel Without A Name**] first told us about it a few years before. Since it exists on the infrared level of the Spirit World everything is in orange light. Awan explained the origin of the great hospital:

**AWAN:** The great hospital began in the fourth century, after Christianity developed the concept of the devil. The Church taught their followers that when they died, they were to go into the Spirit World, and wait for Jesus to come and wake them up. However, the Church also taught that the Devil could pose as Jesus or an angel of light [2 Corinthians 11:14]. Therefore, if anyone came to wake them up and the person did not look exactly like the picture of Jesus that was in their church, they would ignore what this entity had to say, and would immediately, go back to sleep. As time continued, thousands of Christians died; their souls entered the infrared frequency, and went to sleep. Many people from higher levels came down to attempt to wake these people up, to correct the misconceptions that their church had taught them. When these souls woke up, they did not recognize the Spirit that came to help them. Therefore, they thought it was the devil, and rolled over and went back to sleep, waiting for Jesus to come. They have been sleeping for centuries.

**SID:** That is truly sad, Awan.

**AWAN:** More than being sad, it presented the problem of what to do with all these sleeping souls. We had to create a hospital to house these souls. Tell me my scribe, do you remember when you were in the part of your country called Montana?

**SID:** Yes, Awan. Why do you ask?

**AWAN:** Do you remember how far you could see in each direction? And how much of the sky you could see?

**SID:** Yes, Awan. It was fabulous.

**AWAN:** The great hospital that is in the infrared frequency would be 1000 times larger than your eye could see, in your state of Montana. It is that large to house the billions of souls that were misled by Christianity, thinking that they must sleep, waiting for Jesus

**SID:** That is terrible. Awan, please tell me another possibility.

**AWAN:** Another possibility is that the person did not believe in recycled ignorance, or in any religion. As a result, the person led his or her life under the misconception that it did not matter what you did during your life. When you died, you were dead. You would be obliterated. These people had no knowledge that their soul is eternal energy, and that they would continue to exist after death.

This person led an immoral life. He or she stole money, took drugs, committed many crimes, and went to jail. When the person died, their soul’s vibration began to increase. Then the soul’s vibration stopped increasing. The person found him or herself living in

## *An Astral Visit to the Great Hospital*

the infrared frequency. This is the lowest level of the Spirit World, where the most unenlightened people reside. Since the soul did not believe it *must* sleep, it remained awake. It did not go to sleep, just because it thought there was no after-life.

**SID:** Why did the soul stop increasing its vibration, Awan?

**AWAN:** You must remember that the soul will naturally seek out its level of evolution in the Spirit World.

**SID:** I don't understand, Awan.

**AWAN:** The soul can only keep increasing its vibrational rate to the level of spiritual knowledge that is recorded in the soul. This unenlightened, spiritually ignorant Spirit does not belong in the higher frequencies of the Spirit World. That is reserved for more enlightened beings.

**SID:** I understand that now, Awan. This is making a lot of sense. Are there other possibilities?

**AWAN:** Yes, my scribe. The last possibility is that of a person who had knowledge recorded into their soul. The person does not necessarily follow their religious teachings. Therefore, the person does not think he or she must go to sleep after he or she dies. Instead the person is very aware that he or she will live on after death. This person has lead a life where he or she tried to be spiritual, and helped people. Therefore, once the soul begins vibrating higher than the physical realm, its frequency continues to climb, and the soul enters the next level.

*This conversation took place in Carl's office, about a year after Carl took an astral trip to the Great Hospital. Carl's Spirit left his physical body and visited the Great Hospital. He found his visit very disturbing. In this conversation Carl was not in trance, but in his normal state of consciousness.*

**SID:** I know that you had an experience where you visited the great hospital on the infrared level of the Spirit World. Please explain how that is possible.

**CARL:** It is really easy to understand. I know you understand that there are two bodies—a physical body and a spiritual body, which is the soul. Certain people have the ability to *astral project*, which means their soul can temporarily leave the physical body, and travel to other parts of the universe, even to other dimensions. Since the silver cord that connects the soul to the physical body stays intact, the person does not die. Many people are unaware that they astral project, because most people do it in their sleep.

**SID:** Thank you for explaining that. Now please tell us about the great hospital.

**CARL:** Do I have to relive that again? It was a horrific experience.

**SID:** I think it would be beneficial for our readers if you spoke about it.

**CARL:** In 1997, three entities came and escorted me to the great hospital.

**SID:** What do you mean by entities? What did they look like?

*The Diary of a Medium: Psychic Events in the Life of Rev. Carl R. Hewitt*

**CARL:** The entities looked totally different than anyone living on this planet. They were small in the build of the body. They had small arms and legs.

**SID:** Were they shorter than you? (Carl is 5'11")

**CARL:** Oh yes, much shorter than I am.

**SID:** Could you describe them in detail?

**CARL:** They had very large eyes, much larger than one would imagine. Their eyes were not round like ours. Also, we have the white part of the eye, they do not. Their eyes looked very moist and shiny, and were a deep brownish color. I was told these entities live in another planetary system, where their sun is dim, and smoky-colored. I have been thinking about this, and that is why their eyes are so large. Their environment would be much darker than ours, because their sun does not give off as much light. Therefore, they would need larger eyes to see.

**SID:** That makes sense.

**CARL:** They had no hair on their heads, and they didn't have ears, as we do. They had holes where their ears should be, but there would be no place to hang a pair of eyeglasses, if you understand what I mean.

**SID:** Yes, I get the picture.

**CARL:** Their mouths were very small. Come to think of it, I never heard them talking to one another, such as we are doing right now. It seemed as if they communicated through mental telepathy.

**SID:** Did these entities all look alike?

**CARL:** Well, I cannot say that they looked like triplets, there were small differences between the three of them. They were different heights, but all were short compared to us. They reminded me of small children, about two years old. I don't know why I noticed this, but their clothes were a sliver-gray and seemed to be painted on. They fit as a tight stocking, with no seams. There were no lines in their clothes, such as where we button our shirts, or the top of our pants.

**SID:** That's interesting. Please tell me more about them.

**CARL:** They had the ability to control a person's mind. I know there were times that my mind was frozen, and when I became conscious again, I was in another location. I had no memory of moving from the first place to the second. They also had the ability to manipulate time.

**SID:** What do you mean?

## *An Astral Visit to the Great Hospital*

**CARL:** These entities have escorted me “on trips” three times during my life. The first time I was five years old and the second time I was nine. [See Chapter 11 Alien Abduction.]

**CARL:** I have been clairaudient and clairvoyant all of my life. When I was young, I used to spend hours up in a live oak tree, talking with another boy. I never gave any thought as to who this boy was. It was only after I had grown up that I discovered that this boy was my Indian guide and control, Lone Eagle. He appeared as a boy, about my age in those days, and would teach me all kinds of information.

One day, he told me that there was a great hospital on the lowest level of the Spirit World. It made no sense to me that there would be a “hospital in heaven.” For years I had my doubts; I thought I had been told a story. However, in 1997, after I have visited this terrible hospital, I know for a fact that it exists.

**SID:** Yes, Awan explained that the hospital was built to house the millions of Christians who were taught by their priests to go directly to sleep when they entered the Spirit World. Their souls followed those instructions. Awan said this hospital was built in the late fourth century.

**CARL:** From my understanding that is true. This hospital is a giant warehouse, or motel to house all these sleeping bodies.

**SID:** Please describe what you saw there.

**CARL:** The color of everything was orange, the vivid color of a very ripe orange. I did not see lights, as we know them, yet everything was in orange light. The people’s skin was orange, the floor, walls, and ceilings were all orange in color. There were no shadows. It was a creepy, horrible place to be. I kept saying, “This is a dream, I can’t be here.”

**SID:** Did the three entities take you for a tour of the hospital?

**CARL:** Yes. They escorted me everywhere I would go. Two were in front of me, and one behind me.

**SID:** And they didn’t speak to you at all?

**CARL:** No, they did not. It was the same way it had been when they took me in the spaceship, as a child. There was someone in Spirit who appeared, and talked to me, about these entities, while I was in the hospital.

**SID:** What were you told?

**CARL:** The Spirit told me these entities had lived on this earth for thousands of years. Their brains are fully functional, because they do not age or die. They have evolved beyond the bodily functions that we are used to. They do not eat food, nor do they need oxygen. It seems to me that the bones of their skeleton must be very brittle. The tears

## *The Diary of a Medium: Psychic Events in the Life of Rev. Carl R. Hewitt*

that they shed are blue in color. Even their blood is blue. It is beyond my understanding. These are my own thoughts and speculations. These entities may not be extraterrestrial, but interterrestrial. They may live on the inside of this planet.

**SID:** What do you mean?

**CARL:** Spirit has explained to me that there once was an explosion of the sun. A large chunk of molten rock was thrust away from the sun during the explosion. All this happened billions of years ago. A hot chunk of molten rock was spinning very fast. The centrifugal force caused all the matter to go outward, just as clothes are found on along the outer wall of a washing machine's spinning drum. Therefore, when this molten sphere of rock cooled, it had a hollow central core. I just described how the earth was formed.

**SID:** That is very interesting.

**CARL:** The very core, within the earth, remained there because of the magnetic pull of the outer core. Because the core is still hot, it glows, like a huge charcoal, but it is smoky blue. It is my contention that this glowing core is the sun for these entities, who live in the inner world. There are three openings in the planet which allow these entities to leave the inner world. The first is in the Atlantic Ocean, the area that is known as the "Bermuda Triangle." They have a way of making a huge waterspout, which spins so fast, you could fly a ship through it, you would travel between 400-600 miles, the thickness of the earth's crust, before you would arrive in the inner world. There are two other openings at the positive and negative (North and South) Poles.

Our government decided to test the powerful bombs, in the year 1947. I am not sure if they were hydrogen or atom bombs, but the scientists tested them underground, somewhere in New Mexico. They drilled deep into the earth, placed the bomb there, and exploded it. The explosion rippled through the earth's crust, and caused terrific damage in the inner world. The inner people were forced to send some of their airships out through one of the openings, to see what had caused the damage. During their exploration, the government shot down one of their ships, and another ship crashed with one of our airplanes. The government recovered the bodies of these entities, and had them frozen somewhere near Roswell, New Mexico.

**SID:** So some of the extraterrestrial may really be interterrestrials.

**CARL:** That is my theory. Walking through that hospital was a very horrible experience for me. To tell you the truth, I think my soul is trying to prevent me from remembering this incident. The hospital did not have beds, as our hospitals do. The Spirit bodies were lying about four inches apart, stacked from the floor to the ceiling, because there are so many of them. It reminded me of the very high shelving of merchandise that you would see in Sam's Club, or BJ's Wholesale, where merchandise is stacked from the floor, practically to the ceiling. The hospital has aisles so long, that when you stand at one end and look down the other, you cannot see the other end. That is how big this hospital is. It looked to me as if it would go on for hundreds of miles.

**SID:** How many people were in the great hospital?

## *An Astral Visit to the Great Hospital*

**CARL:** How can you count millions? The ceiling is 50 times higher than Sam's Warehouse. There is no way of saying how many souls are stored there. Awan has told me there are millions, beyond count and number. There is no way of knowing the exact number, besides new souls are arriving there on a daily basis.

Some of those people were not in a deep sleep. Some were only in a light sleep. They would awaken, and cry out in an agonizing voice, "Jesus, help me, Jesus help me." Their souls were programmed that way, because these poor people accepted the false teachings from their priests.

These people are waiting for Jesus to come and awake them. If another Spirit who does not look identical to the picture of Jesus that hung in their church, comes to wake them, they will just roll over and go back to sleep. Some of these souls have been asleep for over 1600 years. I am not sure what can be done to wake them up permanently. Some of them may sleep for eternity.

**SID:** It sounds like a very depressing place.

**CARL:** It is. Hearing haunting cries of these people deeply disturbed me. I saw other Spirit people, who had never accepted the priest's false teaching, and now reside on higher levels of the Spirit World, walking around, calling out the names of their sleeping relatives. I witnessed one Spirit who had aroused his sleeping mother. The mother raised her head, opened her eyes, looked at her son, then closed her eyes, and laid her head back down, and went back to sleep. The programming in her soul told her that the person who was trying to wake her was the devil, wearing the mask of her son's face. To me this was hell, for the ones that were not asleep. There is no way to convince these sleeping souls that their priests had misled them.

**SID:** This is so very sad.

**CARL:** Awan explained to me that the soul records and holds every piece of knowledge. The soul cannot distinguish the truth from falsehoods. It does not judge the validity of the knowledge it contains. Therefore, any information, or programming, that the soul contains will be carried out.

**SID:** I can now understand the damage that the false dogmas created by the Church has caused. How did you come back?

**CARL:** Well, they finally took me back to where I was suppose to be, but it took me a long time to re-adjust. The imprint of the experience is so intense, so very strong, that I had trouble coming back permanently. Afterwards, I had trouble sleeping for several weeks. I was afraid to be alone, and I was having trouble functioning. I kept praying to the Lord God of my being to remove this experience from my soul, because I didn't want to deal with it any more. As I look back, I am quite sure that this was all created to prove something to me.

**SID:** Why do you think everything was orange?

**CARL:** I have no idea. I have not received any answers about that. That frequency is known as infra-red, but that hospital is in the upper regions of the frequency.

## *The Diary of a Medium: Psychic Events in the Life of Rev. Carl R. Hewitt*

The Spirit people are telling me you are to know this. The same theologians who programmed their parishioners' souls to sleep for eternity, put these words in Jesus' mouth:

**"It is easier for a camel to go through the eye of a needle than for a rich man to enter the kingdom of God."<sup>1</sup>**

At the end of the fourth century, the theologians deliberately put this into the Bible to scare the wealthier people, and convinced them to give most of their money to the Church. It was a way for rich people to buy a place for themselves in heaven. The priests were only interested in getting this money in their own pockets, so they could spend and enjoy it. They had little regard for the people who trusted them. All this was done

**SID:** That is the time when Jerome was revising the Latin Vulgate Bible.

**CARL:** The Spirit people are confirming that as true.

**SID:** Perhaps that is why so many of the clergy were outraged at Jerome's translation. *This quotation supports my statement:*

***At first his translation met with antagonism, and it was even declared to be heretical. The renowned Church theologian Augustine at first had his doubts about it.***<sup>2</sup>

**CARL:** Perhaps that is true. You know when I was a small boy, going to the Baptist Church, I heard this message every Sunday. You must give some of your money to God. They often took up three or four collections each Sunday. They would not continue with the service until enough money was collected. They put as much fear as they could into the people's minds by ingraining the idea *that the money is the root of all evil.*<sup>3</sup>

**SID:** Thank you for sharing all this information with me today. I know you were very reluctant to relive this experience. I am sure that the readers will find it quite enlightening.
