

1982 Healing Seminar in Charleston, SC

In 1982, Carl held a seminar in Charleston, South Carolina to teach a group of people how to be instruments of healing energy. To help promote this seminar, Carl went on the TV show *Eleven-thirty Charleston* on Channel 2 WCBD. The TV interview was very interesting because the viewer can easily see Carl's natural charisma. His exuberant energy came through the TV screen, and totally captivated the viewer.

It was a few days later, after Carl had finished presenting the seminar, the entire group went out to dinner at a Chinese Restaurant. When it came time for dessert, the restaurant provided a basket of fortune cookies. The basket was past and everyone took a cookie. Then they went around the room and read the messages. Everyone's message was on a white strip of paper. Carl was the last one to open the cookie and read the message. When he broke the cooking, he discovered a green piece of paper. There was written a spiritual message:

Carl was stunned by the message, and eventually came to believe that this message was referring to Jesus or Ramtha.

This message had a profound effect upon Carl. In his later years, however, Carl became very sensitive about how he received this message. He felt that skeptical people would not take the message seriously, if they knew that it came from a fortune cookie. I thought it enhanced the story. The fact that Carl received the only message on Green paper, and that it was an important spiritual message, was enhanced. Spirit obviously had a hand in setting up this event.

A few weeks after Carl's death, we came across a video of the WCBD interview. Unfortunately, there was some deterioration of the videotape; hence there is some static. However, it is very interesting to see Carl when he was 54 years old, and to sense the high intensity of his energy. You will find this video in the next chapter.
