PROJECT - January 31, 1986

1.

BLACK HAWK: --right hand. Me have problem speaking through the voice box, so I'm going to see if I can demonstrate the voice that I usually use (voice deepens) when I work with my other students. It is a pleasure as I use white man's word, to speak to you tonight. You miss little girl, don't you?

ALL: Laughter.

B.H.: We have to give little girl time away. She have other people she speak to. She down in Pennsylvavania at the same time me speak here with you. She can be here in flash if we so desire. It be the time that I make myself known to you for I have been known for long time with the Chief. I born on shores of Big Water. Big Water not being that of your ocean. Big Water is what you call Mississippi. I born and raised on shore of Mississippi. I play as little boy with the medium when him little boy, too. We climb trees together. We go fishing together. It was me who pull him out of whirlpool when he was 12 years old because we have lots of work for him to do. So me follow him around, keep him out of trouble so he won't come over with us before his work is done.

Many you have gifts but you not ready to express gifts yet. We work with you in your own way & eventually you will be able to do more of spirit work than you have in past. Each one have different gifts. Each one has ability to heal. I was a healer when I was last on earth plane by the Big Water. We got good education, more so than other tribes. But I like nature, although been on earth plane many life times. I prefer life of American Indian. I do not like life of white man. White man lives in ignorance even in your time now. I like nature. That why I like to be with my friend, your medium because he like nature, too. We often go in woods together and I teach him when he sit still long enough. I give him many lectures. He ask so many questions. Keeps us all busy trying to find answers. But we feel we have done good job, don't you think so?

ALL: Answering affirmatively.

B.H.: We glad to hear you say that.

You have come down long road to come to this crossroad right now. Him thinks it strange that tape about me was lost until now. You tell him he no go on Big Bird without I go with him. Me go on Big Bird, too, and I take him back to place he and I went in another life time. We stand and look down in canyon and we see our own people as they were at one time. He will

B.H.: (Cont'd) describe a vision which will be 300 years before this date. He share that with you. For I go to protect him. It is my turn now to move way and release channel for someone else to speak. You tell him Black Hawk has been here. Black Hawk in a black box. (Laughter) With everything black around it. Me proud to speak to you. Me proud to let you know that now I must be on my way.

ALL: Farewells.

NATHANAEL: Well, jolly good evening to you.

ALL: Greetings..

N: And it is a pleasure that I might be here. You see, there are some rules over here that we cannot divulge. For the Chief has stood many times while we were working with the channel, but we cannot discuss the fact that he fitted in as one of the chief's leaders of his own band of spirit. It is not our place to divulge something like this because when the time came the Indian was to step forward and announce his own presence. So tonight will be what you might term a turning point in your development. To understand that there are many of us as we gather with you so many of you are anxious to find out who we are, where we came from, did we know you before? These questions will all be answered at the proper time. It is not even necessary to send the questions out in the ether waves. For when the time comes, our own Master Teachers on our plane will then tell us the time is now to give us answers to that which you seek.

You see, our world is governed by law that you as yet do not understand. Your world is governed by man-made laws which can be broken. Our world is governed by natural laws which cannot be broken. One member of your group has a very good theory of the laws of our world, and yet he would find it somewhat difficult to put in words that you would understand. But in time he will be able to put it in words as we have been teaching him through the processes of mind from our world. The name of the man of your group is that of Kent Harris-Warren. He has been selected by the scientists, the chemists, and those of higher intellect in our planes of existence to bring about a better understanding of our world and its operation. This is not to say that any of the rest of your group will be left out, for each one of you will play an important part as you move onward from this time. You have finally settled into a more perfect vibration of which you will grow to understand as time goes by.

We are not being disturbed by outside interferences as we have experienced in the past, so, therefore, we want to go forward and progress and bring about more knowledge of our world and how it blends and intermeshes within your own

NATHANAEL: (Continued)world. Continue to harmonize and blend and work with each other and continue to bring about a perfect balance of energy that will in time create a larger nucleus of energized power that will radiate out and touch far more than you would imagine. We will furnish that which you seek, and all other things will be given unto you.

Remember that the word "luck" has nothing at all to do with our work.

As you become more attuned to our world and carry out the missions that have been assigned to you, then other workers from our side will work with others on your plane to bring about a perfect balance in your life, be it financial, spiritual, emotional, regardless of what that energy is, we work with you to harmonize to bring about a balance. You simply must go and let us work with you. Regardless of who you are, you are never alone. DO NOT hesitate to give a moment of thanks to those that reach back from our side to help you. When your prayers are directed out into the ether waves and your requests are directed to the spirit friends we all hear those words. You CANNOT direct your thanks to just one, for you are all surrounded by many, but the word spirit rings like chimes in our own mechanism of hearing, and therefore, we answer your call.

I am going to leave the channel momentarily while there is an energy adjustment necessary. You would be kind enough to sing a song.

ALL: "Amazing Grace"

TAMMY: Hello out there.

ALL: --Greetings.

T: Oh, I finally made it. I was out there in that old Pennsylvania country. I had to go to a seance down there and they said, you got to be up there in Connecticut, too. Boy, did I hightail myself up here. I tell you something I was skimming the tops of them trees and those going across my buns, and let me tell you I really was flying through there. I got here in about thirteen seconds.

Well, it's nice to be here. I understand that Indian finally identified himself.

ALL: -Yes

T: Well, I'll tell you something. He's a sweet one if there's ever been one in his life. I'll tell you something. That

TAMMY: (Continued) Indian has been kind to me, but you see, I could never talk about him because that is a law that we wouldn't break over here, so that particular person has to identify himself. And so, the Indian finally let go and told you who he was..

ALL: Yes.

T: Well, from now on, he's going to be with us a lot, because, I tell you, there ain't many places that the channel goes that Black Hawk don't go with him. He's the one that goes fishing with him, and he goes in the woods with him, and everything else. A couple of times he had to get in there and produce fuel for that old engine in the automobile because he ran out of gas. He was too stubborn to stop and get it, and then he was wondering how he was able to get so many miles per gallon. Ask him about that down there in that old South Carolina state, because Black Hawk was under the hood trying to keep the engine going until he got to a gas station. He coasted in and the thing just went bad right at the pump.

But he's had a problem with him, you know. He's the one that's been trying to keep him out of trouble. Boy, he's told some stories over here about him, about the time that he dragged him out of the lake and back on one of them things you float on and, oh, he was as drunk as a skunk, and he pulled him out there on that thing you float on and if he hadn't done that he wouldn't be here and used as a channel. He would be gone over here, somewhere. We don't know where he would be. And he's sort of working them things out now. One time he was kind of wild. But we're not going to tell you all that stuff. It's just wasting all of that energy. It's nice to be here with you, I tell you.

It's warmer here in this place than it was there in that Pennsylvania town. It's cold down there. You see, we don't know hot and cold but we do notice the chemistry of the air as we pass through it, see? You wouldn't understand that. That young lad over there, Kent, he would probably understand it, but it would take too much time for him to get him to explain.

All right. Let me see what you're going to....What do you people want to know about tonight? Talk fast, because, you know, the Chief and the channel aren't going to be here for a little while. 'Cause they're going to take the big bird. I'm going to go with them but I won't be coming back on the bird. I'll be here before the bird gets off the ground. Because I don't have to fly in them old things. I can just go anywhere I want to

TAMMY: (Continued)

I've been out to the moon, you know. There's nothing out there. I've been out to some of the other planets, too. They're all dead. You might think I'm dead, too. I'm not dead.

PAUL: Tammy...

T: Yes, we hear your voice..

PAUL: Tammy, how fast can you go?

T: We can go as fast as light.

PAUL: Mm hmm.

T: That's kind of fast, ain't it?

ALL: Yes. PAUL: That's real fast.

T: See, you can't travel in the outer regions while you're in that old clumsy, heavy body. You have to go into spirit like I am, and boy, can we zip around fast. I can be in London before you can say "Get out of here." That's how fast I travel. I'm telling you. We go right through the side of a house. You never see us. You know, at first that was kind of fun; I didn't know how to do that at first. Here I was trying to open doors, and one of my teachers comes along and says, "Don't bother. Just walk through." and I said, "What do you mean, walk through. I'll bust my head." He says, "No, just walk right through it." And I did, and it's fun. I'm telling you. It's fun, fun, fun.

You got any more questions. You know, I've been all over the place this week. That was a tragic think that happened the other day with those people. They were going into the heavens in a rocket and the thing exploded. But they were met right there in mid-air. They really didn't know what happened, but they were met by their other comrades that went over before them. And so they're in the world of spirit, in another world, so they don't know whether they're in the world of spirit or up there in the sky looking down at the earth. But that was not a bad experience really.

QUESTION: What happened on the rocket?

T: There was a leak in that foolish thing. It was the exhaust from the motor that ignited the fuel. And so, the comrades that had already gone to the world of spirit in one of them rockets when it was setting on the ground? Well, they

- TAMMY: (Continued) were flying in that one, too, because they were concerned about that leak. And so they were flying in that with them, and as soon as they were released, instantly released, from the body, they were escorted into the new world--new world to them. And, so, to some of you, it might be a horrible thing, but it really wasn't.
- JOE: Tammy, is this a lesson that this planet has to learn from? Or was this just a tragic accident?
- T: It was a lesson that the world has to learn as your world is still in darkness.
- POLLY: Will they ever find out the reason?
- T: Yes, it was because of the tank that was vibrating, and there was a leak and the..
- POLLY: But the people here will find out the reason?
- T: Well, they'll blame it on somebody. There'll be a scape-goat, you know what...it always happens, and then everything's covered up. That shouldn't be anything new to you people.
- Answer: Right.
- T: Just keep your eyes opened and your ears and you will know what's going on. There's a coverup every time you turn around.
- LISA: Do you know anything about the toxic substance they were carrying?
- T: I don't know anything about it. I have to get some of these chemists over here to talk about it. Honey, I'm not as educated as you think I am.
- LISA: Sorry.
- T: But I do my best. You know what I mean? I stand around sometimes and I listen to what they're talking about and then I try to put it together. And you know, it's a learning process with me. And sometimes when I try to explain, you know, like through the channel right now, I have a problem. I've tried to attune to another vibration. That's why we're not having so much trouble here tonight. So he won't have so much of a problem with all that water. So we're using another vibration. Because one of the other chemists came in and they're changing things. So, if the voice sounds a little bit different, well, it's because

TAMMY: (Continued)we had to go one octave below. Well, this is kind of the way it works out. You talk to that little girl out there that plays around with the harp. She will tell you about it. Because they got me speaking on another vibration, lower, to put it in another way, in another key. Doesn't that sound ridiculous?

ALL: No.

T: Well, I hope you know what they're talking about. But they're working with this medium. Boy, they're having so much trouble with this one. I'm telling you. He was so stubborn! we wanted to get him in that old black tent for a long time. Pretty soon we got to get somebody else in here. I'm going to get my friend, Jerome in here. When I get him in here, boy, are we going to have fun.....

PAUL: Ha, Ha, Ha!

T: ...I'm telling we're going to have fun. You're going to hear these old trumpets banging together. There's going to be like garbage cans in the back alley with the cats and the dogs fighting over what's in the garbage cans.

All right.

What else do you want to talk about? I seem to be hogging the whole control here?

KENT: Tammy...

T: WHAT?

KENT: (Laughter)..quick response....These astronauts, now, that went into the other world, they've been on this plane--I don't know what the average age of them was-- but they were all highly educated, they were all brilliant, they've explored space before, they've done all kinds of things, they've learned all facets of things on this earth. And it seemed like it was a time for them to transcend from one school to go to another. It's like they're still exploring, but they're in another dimension. It's continuing, it's just in another plane.

T: You're absolutely right. Because they had to all come at the same time to continue their education in our world. So you're absolutely right because there was no more learning for them to do.

KENT: So this plot is exactly the plot that is in Jonathan Livingston Seagull, is that right?

TAMMY: Exactly. Exactly. Now if you stop and consider that person by the name of Bach..when he got that message.. now don't you think it's kind of strange that instead of him seeing people he saw seagulls?

POLLY: Right.

T: Well, you see, the majority of mankind that's still living on the earth plane--that's excluding you people--are all stupid and they don't have their minds open, so they had to give a big \_\_\_\_\_ a seagull, not another fellow human being, and so he wrote all that information down and so there it is as plain as day. When the other two spirit birds came to escort him into the world of spirit, the physical body dropped into the ocean, dead as a doornail, and then he went on with these two aports and then their energy ran out and then they disappeared. And they left him alone. And there he found himself in a new world, a world that he called heaven. Did you know, we don't call this heaven? We call it the world of spirit, because you can't enter our world unless you ARE IN SPIRIT; it was the men of the cloth that created that nonsense about HEAVEN and HELL. They did it so that you would have to

(end of side A)

Paul: Tammy, would you wait a minute? Tammy: Yes, I'll just sit here and say nothing, nothing, nothing, nothing..

... Are you ready?

PAUL: Yes.

T: Oh, boy, let's go. I tell you something. The channel don't have much food in his stomach. When he gets out of here you'd better feed him because he's going to be as hungry as a horse as you would say.

JOE: I got something for him, Tammy.

T: Is that Josef?

JOE: It's Josef.

T: OK, Josef. Is the little girl with you tonight?

JOE: Yeah, the little redhead.

T: Oh, you got the little redhead. You got Geneva with you, right?

JOE: Geneva.

T: OK. We like Geneva.

POLLY: Tammy, when we say "Thank you", mentally, can you hear us?

T: Yeah, but you gotta put more power behind it. Sweetheart, you should send it verbally. You see, when you say it verbally, you put power behind it. You see, you send it out into the ether waves. You see, when you say it mentally, it's like a very, very, low voltage amplifier. Do you know what I mean?

POLLY: Yes, I do.

T: But, when you say it verbally, you're wiggling them lips, and, honey, you're sending it out into the ether waves, and, boy, does it reach us. So, you see, it's like..it's the difference between whispering and speaking. Do you understand?

POLLY: Yes, I do.

T: From now on, we want to hear your voice.

PAUL: So, when I whisper and say "I hear you.", they hear me?

T: Well, you got a lot of fans over here, Jerome, and I think they would hear you, but they would be the necessary ones that would help you. So I think you would be better off if you spoke up.

POLLY: They would think you were queer.

T: No, they wouldn't think he was that, either. (Laughter) Young lady, we don't use words like that! 'Cause everybody over here and everybody over there are all queer, if you want to use that term, for being a little different. Everybody has different hair on their head, different color eyes, and everything else. We've heard that, that WORD vibrating from so many ignorant people on your plane we don't even,...we don't even associate with that kind of word. Now, I'm scolding you, honey, because I'm old enough to be your great, great, great, great, great, grandmother. Oh, I might sound like a little kid, and so I'm scolding you. Don't you use that word again in this century.

POLLY: OK.

T: OK, thanks for the \_\_\_\_\_.

PAUL: I have a question on healing. When I'm healing, supposedly, --from the book that I read--your left palm is negative, your right palm is positive, I believe. And, if you use the back of your hand, it would be the opposite. Now, different spots on people's bodies, like the front of the head, has a certain polarity, and the back of the head.. when you are working on somebody, do you want to be aware of this?

T: We recommend that you get to know where the seven chakras are, or the openings to the spiritual body. It is wise to start at the top of the head because then you directing the energy into the crown chakra. Then, when you move the right hand around over the third eye, again, you are directing the positive energy into the second chakra. When you move your hands down to the throat area, we recommend that you have your left, the negative fingers, on the third chakra. With you right hand positive on the opposite side of the throat so that you get positive/negative vibrations --or, a better polarity, do you understand now?

PAUL: Yes, a flow of energy.

T: Right. And, if it's a lady you're working on, you work on the third chakra from the back of the lady. Don't be a feeler, be a healer. Because the heart chakra is under the left breast and we ought to watch some of these male healers. We don't even bother with them. So they just go through the motions. We like things to be done in the proper manner. After all, we don't want people on the earth plane to look at you and say, "Don't go to that tall handsome man there because he's a feeler, not a healer." So we kind of direct. We have taught the channel here over the years how to teach the students. And that's where all the teaching comes from. Because, if he didn't do the right thing, well, he'd have to answer to us, because we have to have council meetings about our mediums.

PAUL: As far as the energy that's used in healing...could you explain: if one was, like, I keep on thinking of this word, if one was perfectly aligned in terms of his energies here he would never get sick because he would, supposedly the magnetic energies in his body, whatever this energy is, would be in the atoms, right down to his atomic structure and everthing would be functioning perfectly, I guess. This all has to do with healing. Could you explain a little bit more about this energy?

T: You must remember that each person has an automatic, if you want to put it that way, healing mechanism within the physical body. It is your mind that activates the healing mechanism. And as you attune yourself and become acclimated

TAMMY: (Continued) mentally, physically and emotionally, you become attuned to the world of spirit, the healing energy, and you keep that activated and in motion by your own thoughts. Remember, as you have heard said so many times, that THOUGHTS ARE THINGS. Thought is energy, and once you have been able to master this continuous flow of positive energy in and out of your body, then all organs of your body function at the proper rate of vibration. Even the channel that is being used at the moment, we've had trouble getting through to him to accept this. But you notice how fast he bounces back when he gets sick. He could be as sick as a horse today and better tomorrow. We've had trouble getting him to align up the way we teach, too. There is still a stubborn streak within him, you know that. But as soon as you learn--and be sure--and know that you have tuned to the world of spirit and the healing power, then it continues to flow. We don't like to use the word "faith", but if you have faith in yourself, confidence in yourself, and just know that you are tuned to the positive, healing mechanism of the world of spirit, & you keep this activated in your own physical self by your own thoughts, then and ONLY THEN will you find nothing can bother you physically, mentally or emotionally, because you are in balance. Do you understand?

PAUL: Yes, so healing, is just a more, it just assists that energy in a, to a greater degree?

T: Absolutely.

PAUL: But the same energy?

T: It is the same energy. But we're going to need some more water in this cabinet because the energy is being used up here and there is a dry throat.

PAUL: OK.

T: Where are you going to be? To the left or to the right of the channel?

PAUL: To the left.

T: To the left.

PAUL: Yes. OK. Go ahead.

T: I think we have it under control. Did you put it in the hand? . . . . You probably wonder why I said "Did you put it in the hand?" I don't have the feeling, if you know what I mean.

PAUL: Yes.

T: The body has to feel (?)the water. I'm not going to lower my vibration enough to have enough feeling. You probably want me to talk about that, too, but I'm not going to.

JOE: Now, Tammy, don't get naughty.

T: Me, get naughty? No way, sonny boy. I don't get naughty. I'm always nice.

Let me see, now. I've got to call the roll. Now, let me see which way we're going. We've got it written down here on this old, on this old chart. All right, I see it written on the slate. All right, we're going to see over to the right of the channel is Robert.

ROBERT: Hi.

T: Hi, Robert. You sound good tonight. Right next to you..is it Florence?

FLORENCE: Yes.

T: All right. Florence, you got to keep up the good work, honey. Have confidence in yourself, and don't be so afraid.

FLORENCE: I won't.

T: Don't be so afraid, because we often work with you and we bring you right to the edge but you jump right back. Like a rubber band. Sitting right next to you would be that little girl playing the harp, I believe..is it Susan?

SUSAN: Yes, it is, Tammy.

T: All right. Susan, did you know that one time you were an American Indian?

SUSAN: Yes, I do.

T: Well, I got this. I'm reading it right here on the chart. We read several languages, you know. We don't drift around over hear and play harps, as you think. We learn. We have schools. We get educated. All right. Let me see. I got to go from Susan. Let me see if I can read that. Leesoule. Leesoule..

LEE: That's me. Hi, Tammy.

T: Is it Leesoule, or Lee?

LEE: It's Lee, for my first name.

T: Well, they got it all scribbled together here, so I didn't know whether it was one word or two words. All right, let me see. We gotta move from there. Oh, my friend ain't here is he? Tubba? He's not here. So, is it Kent?

KENT: That's me.

T: Oh, there's Kent Harris-Warren. He's the scientist. He's the scientist. Boy, have we had trouble with him. But it took a long time to get him here, but we've got him now. He's got a net around him. He ain't going to get away this time. Let's see, we're going from there, we're going.. Is it Catherine? Katy?

KATY: Yes, it is.

T: Kitty? Katy? What is it? Kitty?

KATY: Katy.

T: I like Katy better than I do Kitty.

KATY: That's it.

T: OK, Katy. Now we're going to move away from you there. Have more confidence in your healing there. Katy. Because you have the blue lights working with you.

KATY: Great.

T: | And so, that's good. We're going to go from there. Is it Lisa? Lisa?

LISA: That's what it is.

T: OK, that's Lisa, that little redheaded girl. Oh, she's cute, but she has a temper to go with that red hair. I've got it written all over my chart. It's written right there. Part Jewish, \_\_\_\_\_, aren't you, sweetheart? Part Jewish? \_\_\_\_\_, aren't you?

LISA: Yes.

T: We're a little mixed up there, a little bit. OK, we're going over to...I believe it's Josef.

JOE: That's right.

T: Joe, I can understand why the channel calls you Koza, Koza Kozee sometimes, because I heard him.

JOE: He had a bad time remembering the last name.

T: He has a bad time remembering his own name. All right. We're moving over. There's that little girl I gave a bad time to. Is it Polly?

POLLY: Yes, it is.

T: Are you mad at me?

POLLY: No, of course not.

T: Oh, good. I'm glad of that. I'm so glad of that. Thank you. That's that Polly. She's a sweet lady. She has a lot of healing ability. But we would rather you sit on the chair and send your healing out through the healing waves rather than stand on the floor & do it because you got problems on your legs. We're working with you..

POLLY: Three cheers.

T: .. we're working with you

POLLY: Good.

T: ..especially that left leg is a ..

POLLY: That's right.

T: ° ...bummer, isn't it, as we say over on this side? There is kind of a bad circulatory problem...

POLLY: That's right.

T: ..and we're working on that, too. Don't be surprised if you don't find some strange feelings on the leg because we're going to do psychic surgery. We're going to do something about that problem.

POLLY: Thank you.

T: Because it's like a..it's kind of like a dam that's already clogged up. You know what I mean?

POLLY: Yes, I do.

T: And the water don't flow very well? Well, we're going to get in there and see what we can do.

POLLY: Thank you.

T: But you got to put your leg up there a little bit and rest it. We want you to know this is going to happen when you're asleep tonight. So keep your eyes closed, go to sleep and forget about it. We've got to do it when your body is asleep

TAMMY: But in the morning you might have some strange feelings, and it might even be, skin might be tight and feels like something happened to it. Well, we'll work on it for you. All right, we're going to leave you there. We've got one more on the chart here. This is Jerome Paul Tretter. What's the first? What's the first name?

PAUL: It's Paul.

T: It's Paul? Well, they got Jerome first here. Jerome Paul ...is it TRA-TER?

PAUL: No, it's not TRA-TER.

T: What is it?

PAUL: T - R - E - T - T - E - R

T: Oh, it's Tretter?

PAUL: That's a nice name. But it don't take much/<sup>there</sup>to make it sound like a traitor.

PAUL: Well, I was called a lot of things.

T: Well, we're not going to call you that, because we're glad to have you here. We been working with you quite a long time, but you know something? When we direct the messages to you, you get bits and pieces, bits and pieces, pieces and bits.

PAUL: Yeah.

T: And you sometimes don't always put it together. You put the last part of the sentence at the first, and the first part in the last. And, you know, it's sort of like putting the cart before the horse.

PAUL: Mm hm.

T: But we don't lose patience. We keep right on. We're not going anywhere you know. We're going to be around for quite a while. So we went with you.. But have more confidence in yourself and..you see, when we give you a message and you get it wrong you talk with the channel here and he'll help you straighten it out, because we give it to him the same way we give it to you and then he can interpret it, you see.

PAUL: OK.

T: So we'll make sure he works with you because we got to

T: (Continued)bring you out of that vibration that you're in now. You're going to do all right. It's going to be a good year for you. All right, we're going to leave you there

Boy, have I been hogging the channel. All right. Let's see what else we got here.

Oh, wait a minute I thought you were....where did you all go? Oh, Mr. Nathanael is back again. You went to a council meeting? That's why I had all this long time to stay? Why didn't you stay longer? I was enjoying myself. All right. I'll back off. Don't give me a bad time. Let me release him, and you can have him. I've got another place to go to so I'm going to say goodbye to my friends and I'm going to come back and see you at another time, but not tonight 'cause I got to go. I've got a tight schedule here. All right, I'm going to leave

ALL: Goodbye. Goodnight.

NATHANAEL: Well, I think that it was about time that I got back because we could hear the chatter of that child all the way down in the meeting room. Hold on just a minute now. She usually has a way with that water thing, but now what? She's not here so I'm going to have to try. Hold on a minute. Either I will pour water down the throat or I will drown him...one or the two, so hold on.....Can you hear my voice?

Answer: Yes.

NATHANAEL: Oh. Well, it sounds a little watery but we'll get things straightened out here Well, this has been rather an exciting night. The energy has been kept up here. Let's have some questions and see if the energy will stay up. Let's start with the person at the right of the cabinet and go round and let's see what we can do.

FLORENCE: Spirit, what can we do to help the channel while he is away on his trip?

NATHANAEL: Send him out good thoughts and loving thoughts. Because the church and the people involved in the church actually are his family. That is all that is necessary.

ROBERT: I would like to know about the earthquake that happened today in the midwest. Why was that brought about?

NATHANAEL: The shock waves that happened in the western part of your country today is only the beginning of many shock waves.

- NATHANAEL: There will be one between where you are now sitting and where that shock wave came, or appeared, today. There will be one close by where you are now sitting, buildings will shake, not only on your own continent but on others as well. There will be in the next few months volcanoes that come alive whereas there is no history of it every being active. This is only the beginning of many changes that you will be aware of. I was standing by one evening within this chapel as a tape was being played that was recorded several years ago and the entity from the outer reaches of the world of spirit, giving his name as Ishkomar. You will notice that on that tape was the message of many changes coming on your earth plane. These changes were predicted by others--Master Teachers as well as channels between the two worlds. Keep your eyes open and your ears open. You will see plenty. All of you, within the next few weeks and months to come.
- ROBERT: Thank you.
- SUSAN: Spirit, I feel that I am on the brink of -something. I don't really know what it is. Can you comment on that please?
- NATHANAEL: Soon you will have a revelation and then know what the balance of your mission will be. We cannot divulge this. It would be breaking the natural law of the world of spirit.
- SUSAN: Thank you.
- LEE: Spirit, what can we do as a group to realize the new building of Gifts of the Spirit Church?
- NATHANAEL: You must remember that at the present time with the economy the way it is, in order to build a church it would take as many as six families of six different individuals to sign the mortgage because banks, the way they operate on your plane, will not take a mortgage for a church unless it is backed by a triple amount of assets. Because remember it is a church, it is not an individual's house. The church will come in time. We have assigned a specific place for it. In time, the channel will be led with the rest of you to build the church. Many things have happened since the church was formed in the year 1977 and '78. Your group at the moment was late in getting formed to bring about the growth that we need and you need to bring about other changes necessary to help the masses. The time was not right for the church to be built. But the time is approaching soon.
- LEE: Thank you, Spirit.

KENT: Spirit, on the subject of thoughts, it seems like the thought force itself is another energy, just like we have for different fields of energy we have on this plane right now. We have gravity, electro-magnetics, strong and weak forces. It seems like the thought force is the fifth force that actually unifies all these forces and brings about matter and any kind of basic building block on this earth plane as it is. It seems like everything that is built is based on our thoughts. Everything that happens around us is actually based on the fifth force that we use and really don't know we're using. It seems like energy really is relative to the observer.

NATHANAEL: You are absolutely correct, my son. Thought is energy, but you must remember as you have already observed, that thoughts can be positive as well as destructive, negative. Thought is as you say, the fifth energy. It is the energy that encompasses all of the others. If you could picture the other energies and thought being like that as a bubble that surrounds all the other energies. Thought is spirit. Spirit is positive and negative as you are familiar with. Your world, the physical world, is out of balance when it comes to energy because of the negativity created by the people has caused a grounding effect, and therefore your world is out of balance. This is why you will see many changes on the earth plane dealing with earthquakes, tidal waves, volcanoes, and many changes in the heavens all about you. Keep your eyes open. You will see many changes that man cannot do anything about. But this will bring about a better understanding through men like you and others and eventually it will create a different light in the minds of people. That which has not been taught before will be taught, to the masses. Watch your educational network system. It is that system that will bring about the Truth.

END TAPE B.

Unrecorded on tape; by memory:

KATY: Spirit, Tammy has already answered our questions about the astronauts, I would like to ask about something personal. My mother entered the world of spirit ten years ago tonight, and my father about 35 years and two days ago. I want them to know that I think of them often.

NATHANAEL: Right now, they and many more people are here in this room with you people. You have but to meditate, visual them there and they are there..

--Tape resumes:

- NATHANAEL: ----when all of these things just mentioned will be left behind when you come over here. All of you will stand naked in the eyes of spirit regardless of how much you have accumulated while on the earth plane. It is all loaned to you just for a while and then you have to leave it behind while you come into a world that is created by thought. Here you will work with energy. Here we have universities, schools, we have here music that you could not possibly understand. Here everything is far more advanced than on your earth plane. Here everything is created before it is even given to those on the earth plane that reach out with an intuitive mind.
- KATY: We can hardly wait.
- NATHANAEL: Let's go to the next person before the energy goes down.
- LISA: Welcome, Spirit. The book I am reading now by Arthur Ford refers to God's Plan. What exactly is God's plan?
- NATHANAEL: Why don't you use the word spirit, rather than God?
- LISA: I like "spirit", but he uses "God".
- NATHANAEL: Well, he was a man that did not have too much of an education. He was brought up in the protestant religion of the state of Florida on your own continent, and a great deal of religion was thrown at him. In other words, he could have been a Baptist, or Congregationalist, that became gifted with the gift of spirit, so therefore he would be using the term God's plan. If he had of gone further to study the teachings from the world of spirit, he would not have used that term at all. He would have simply have said that the natural laws of the universe are governed by natural law which are immutable, unchangeable and he would not have used the word God as he did. Do you understand?
- LISA: Yes, I understand, Is there a Spirit Plan?
- NATHANAEL: Please repeat.
- LISA: What is this whole realm of <sup>re-</sup>incarnation, coming from spirit, going back to spirit, a Plan of some type..
- NATHANAEL: Reincarnation is nothing other, my child, than advancing to higher levels of spirit. If you would take, for example, this is one of the crudest way we known of explaining to you people on the earth plane, if you take a large onion from

NATHANAEL: (Continued) your grocery store shelf and cut it in the middle and look at the very center and that you would consider as the planet earth. Each ring around it is a different level of spiritual growth. When you stay at one particular sphere and can't move to the other, then you have the choice to reincarnate or stay there for eons of time until you progress. Reincarnation is none other than taking a course over again to progress, and sooner or later you would be able to work out the problems and love closer to what we term perfect spirit. This is where it is difficult for us to explain to you because the higher realms are what you might call the godhead, is close to what you might term perfection. It is entirely up to the individual to progress. Just as you progress on your earth plane now, you progress here, but it is entirely up to you. Do you understand?

LISA: Yes, thank you.

JOSEF: Spirit, do you have any guidance for me at this time?

NATHANAEL: You stand out in the color green and blue in our spirit eyes as a healer. When you find yourself sitting quietly in meditation, wrap the children in these colors so that they might be protected from any negative energy that might befall them. Do this daily and especially in the early hours of the morning so that they will be protected during the course of the day. That's our advice to you.

JOSEF: Another question is: I was told once before that this was my last life on this planet, re-incarnation no more. Could you add to this?

NATHANAEL: When you reach our world you will not come back unless you really want to. You will not feel guilty, but it will be your choice, if you want to come back, to be a missionary, as many of them do on your plane. Take an example -- across from where you are sitting, the young lady, she did not have to come back this time, but she came back to shed light on other people that were still living in the shadows. She felt sorry for those that were still ignorant, so she came back, and this is why she is in this life today. She will NOT return in physical form again. However, it will be your choice if you do this. It will not be necessary unless you feel that you must come back.

JOSEF: Thank you very much.

POLLY: Spirit, I think that I might need a guidance in what I might do to help this church.

- NATHANAEL: You have been a cell in this church, like in that of a cell in the battery. You have done a great deal. The church is your home and your family. But this church, the Gifts of the Spirit Church has been your salvation.
- POLLY: Right.
- NATHANAEL: We do not ask you to do anything other than what you have done, for you have gone above and beyond what we term the call of duty. Continue on as you have in the past. You will help keep things in balance.
- POLLY: Thank you.
- PAUL: My question is I wanted to send my love out to Kevin who I knew years ago and ask if he is still OK and if he is advancing on the other side?
- NATHANAEL: The message is being taken care of, my son, and he will and is hearing the words.
- PAUL: My other question is: There must be some reason why I have my car. I have often contemplated another. Is there somebody that's with me that had this car or had <sup>one</sup> similar to it in the past life or something?
- NATHANAEL: You have a spirit guide that would have lost his life in a car exactly as you are driving now, but it was new, and it was in the country that you know as Italy. It was in the mountains and he was traveling at a fast speed. He draws to you through the law of attraction. And because the car that he liked so much you drive at this time. He was the one that created a different color than what you wanted when the car was painted. It was his choice not yours, and therefor he has been satisfied.
- PAUL: Well, he's welcome, and I thank him very much.
- JOSEF: Spirit, do you have a message for the channel at this time?
- NATHANAEL: We can only say that we have used the channel for a longer time tonight than any other time in the past and we're just going to release him and back off. He needs to be fed because he's going to come out of this state hungry enough to even devour these trumpets. I leave you with my peace, my blessings, and infinite grace to all of you. I am Nathanael.
- ALL: Thank you.
