Spirit:for this is the first time that I have had the opportunity to speak through the channel, though I have been with the channel for many ^{of your} earth years. Can you hear me?

ALL: Yes.

Spirit: I am the one that was known as Scout. Some of you might remember some of the little tricks that I played when I did not have my own way when a gathering took place in the past. ...but I have been waiting for the opportunity, for you see I had to progress to that level of which I arrived at within the last few vibrations around the channel. And tonight the Chief has given me the permission to speak to you. You will have to speak up, because I do not yet understand if I am speaking loud enough or not.

Sidney: You're doing fine.

Scout: I have spoke through others but not this particular channel. There is a Professor that stands by that is waiting to use the channel after I finish my little talk. It is Professor Wong that wishes to talk to you. You can tell your channel that I went along on the silver bird on the trip back to my homeland and if you would remind him of some things that happened, you would have to blame me for changing the vibrations creating a different energy to let him know I was in his presence. In the past I have been as you might say, rambunctious at times. I have done things that annoyed him a great deal, but I was only doing it to let him know that I was one of the band, but of the youngest in the band. My little friend, Tammy, is not here at the moment but will be here before the session is over. Just as young children have problems on the earth plane, we have problems of a different calibre on our own plane. As I said, she will join you after, when she finishes the work of a circle that is now taking place in Essex, England.

Sidney: Scout, may I ask you a question?

Scout: Speak your words, my son.

Sidney: Was it you that caused, on the last morning of the trip, was it you that caused the object to move, or was it another entity?

Scout: It was I, along with Professor Wong.

Sidney: OK, thank you.

Scout: We startled the Japanese couple, didn't we?

Sidney: Yes you did. (Laughter from all).

Scout: This is something new for me to adjust the energy. I'm still not sure whether you can hear my voice or not.

Many: We can hear your voice.

Scout: I do not want to come through sounding like a little child. I said to the Chief, that when you allow me to speak through the medium, I promise I will speak as an adult, not as a child, because I want to sound more professional than the kid.

(Laughter)

Sidney: Scout, were you an American Indian or were you an Hawaiian?

Scout: I have been so many; I was in Hawaii long before the white man set foot on the islands. I was there with this channel; he was at one time long after we were together--he sailed in the waters of the islands and according to your history books, he discovered the islands....

Sidney: Yes.

Scout: ...but he was not the only one. There were others before him, except they did not get credit for it.

Sidney: Scout, could you explain the parallel between the entities you are talking about right now, discovering the islands, and the present channel, and why is there such a strong parallel with numbers?

Scout: The channel that is now being used convey my own words was the person that we mentioned that sailed into those waters. There is another man within your group that is being discussed over here now. That is the second mate on the ship. Also reincarnated in the present time. Would there be anybody else besides the voice that is speaking to me? Are there any other men in your group?

Sidney: Yes, there are.

Scout: There would be a man that they are describing here by the name of Paul.

Paul: Yes, Scout.

Scout: Then you would have been in that lifetime the first mate, the one that was the assistant of, as you would say, to the Captain of the ship. As far as the dates are concerned, the dates would tie in ^{with} the present dates of the channel. Do you understand?

Sidney: Yes, but why? What is the reason for the back parallel? Or is there one?

- Scout: There is a cycle of, as you call it time, we call it vibration that it makes it easier for us to reincarnate. Just as you have cycles of seasonal changes and you have a calendar to go by that would give you a close date, or an estimated time We also have a change of vibration in our world; and as these vibrations change, which could be as much as one, two, three and four hundred years inbetween, it just so happened that the dates fell very close to the same dates in both cases.
- Sidney: Yes, very much so. Thank you.
- Scout: I have control at the moment, and the energy is stable. If there are no other questions, then I would turn this over to somebody that would be more versed in your communication and answers. If there are no questions, then we will proceed.
- All: Thank you, Scout.
- Prof. W: Good evening, my spirit friends.
- All: Good evening.
- Prof. W: As I touch the energy frequency of your solar plexus tonight, it gives me great pleasure to touch back with you after several of your earth days since we gathered. I, too, was on the trip and, as the young lad was explaining, we went back to the shores of where we were together many lifetimes. I was at that lifetime, as you would understand it today, and your channel will be able to explain it to you, I was labeled as a Kahuna, and so was the channel that is now being used. I did not return in this cycle of time into solid energy. I have finished my cycle of lifetimes, and now reside in the world of spirit. But yet I must guide this channel and help him throughout his lifetime, for we were teachers together. For many years he misunderstood the clairaudient ^{sound} of my name and called it Bong, as you would spell it - B O N G. I am Professor W O N G, you can probably tell how easy it would be hearing this, especially as a Southerner, when they can't usually detect any of the sounds correctly.

(Laughter)

Most of them, when we work with them in the beginning, it's as if they have a mouth of hot marbles. But it takes a long time for us to work with them so that they will know our right name and I am surprised that he remembers the name after all these years. But I had him write it on so many boxes and trees and everywhere he went, he would always remember Bong. Now he has to change his way of thinking, and think of Wong. But I have been with him in many lands, long before the Islands hold the shape that they are in today. For if you move back many eons ago, you will find that the Hawaiian Island chain as you know it today, was part of a continent that stretched toward the southern end of South

Scout: (Continued) America, and it was the continent of Lemuria. When the changes took place and a massive earthquake came about, most of the continent disappeared under the sea. We were at that time on the part that disappeared. You will talk to your channel, and if he wants to admit it, he is very much afraid of water, especially if he cannot see the bottom. It is because of that tragedy that happened at the time that millions of people drowned within seconds. After that point of time, we reincarnated and we lived on the island, and in the experience that this channel has had within the last few days, he would have gone to the, as you call it, burial grounds, of where he was buried in another life. It was at that time that his hands started bleeding, and this is only part of what we intended to prove to him, for in that life, this is what happened that at the times he was performing psychic surgery, as you know it today, and healing. There was not one foot of the islands that was covered, that we were not there with him to view the beauty and all of the surroundings. It is comforting to me that I might be able to share some of these events with you. The time is soon when there will be other manifestations taking place around the channel to bring proof to other people of the existence of spirit. And there is one thing that he is determined to do, and that is to bring the truth to those that are ready for it, that the man that you know as Jesus the Christ was the greatest of all mediums that has ever walked the earth. There were other great mediums before him, but none as great and as powerful as the man that you know as Jesus the Christ.

I have with me, at the moment, a Professor that has not spoken through this channel before. He would like to use the channel while the energy is high. Address him only as Professor, for he refuses to give any past identification. He is not interested in that. He is interested in guiding you and your group. So I'm going to leave you, and I am going to let the Professor take over. But before he takes over, I must release the, and change the energy wave, to someone that you are quite familiar with...

Tammy: Well, hello out there.

All: Hello, Tammy.

Tammy: I don't whether I can adjust this voice or not. My goodness, all them high muckamucks have been talking to him. Hold on a minute and let's see what we can do...

Polly: She adjusted, all right...

Tammy: Hold on just a minute...He don't know it, but we sort of, one of our guides went ahead tonight, and sort of urged one of you people out there to buy him a bottle, and he's got

Tammy: a bottle in here whether you know it or not. But there ain't no hootch in it, if that's what you call it. It's just some juice, and so hold on a minute and we'll see if we can't get some more of that down the gullet.... We had a little trouble there. We hit his nose three times with the bottle, but we finally got it down the throat I think. I'm sorry I'm late. I had some work to do over in England, so as soon as I got out of that cabinet over there I just buzzed right across that ocean, and here I am. And this is kind of an exciting night here, because we got so many people here, and there's a bunch of people from the Islands here, Hawaiians, that can't speak a word of what you could understand, but they're right here joining with us and if all of them suddenly solidified..you all know what that means.. this cabinet wouldn't hold them. The whole cabinet would just bulge right out. It would look like a big lady that's pregnant. So there's no way that they're going to be able to do that, and so I'm going to stop jabbering here and turn this over to the Professor and, he said for me to tell you that, before he gets started, if you have any questions, direct it to Paul, and Paul will answer them and that way we can set it the cabinet and just listen, and we won't have to bother using up all this energy. And then, if Paul can't answer them, that there Jewish boy can, and he can give you answers that would curl your hair. Might not be true, but when the lights are turned out, you know, he kind of gets carried away. All right, let me stop this foolishness here and ... hold on just a minute..you know we have to readjust the energy because it would sound funny if the Professor's voice sounded like mine I tell you. Hold on a minute...

Professor: Good evening.

All: Good evening.

Professor: I have been asked to step up and use the channel, and at this time I will ask that Mr. Sidney Schwartz

Sidney: ..Yes..

Professor: be the helper of the cabinet, and direct your comments to certain ones of your group and keep it in order rather than the instructions come from the cabinet.

Sidney: OK.

Professor: Proceed.

Sidney: OK, we'll start with Paul and work our way around, as far as the questions that we want to ask.

Paul: Good evening spirit, Professor.

Professor: Good evening.

Paul: I've been hearing through various..through other mediums and tapes that the earth changes, because of the knowledge that man has gained, will not be as serious as what has been predicted, but I'm not really sure what to believe, and I've been thinking about this. In a way, I would, ..what I know now, I would rather see the earth changes happen and so that we can start off again in a better way. Could you give me some more information on this?

Professor: As I look down through the dense corrupted energy that is being created by the ignorance of man I am seeing a great deal of people that label themselves as mediums that mislead the masses. There will be changes and the changes will not vary from what has already been told you. DO NOT confuse your own intellect by listening to so many different, as you call it, mediums. You should, when the time comes, have a talk with the channel. There you can understand why so many of those that call themselves mediums are merely on ego trips. You can also talk to the man that is helping with the coordinating of the cabinet at the moment, Mr. Schwartz, and he will tell you a great deal about the Old Testament. The Old Testament and all of its ridiculous laws, were written down as it would come through the different channels at the time. This is why we have said to the masses through every channel that we are able to speak through..whereas they did not change our words, we requested that the people use their own mind to sort out what they felt was right and discard what they felt was wrong.

Paul: So you have to filter a certain amount of filtering that you have to do?

Professor: Use your own common sense.

Paul: Mm Hmm. Is there any spiritual or other guidance otherwise which you can give me right now?

Professor: You, my friend, are like so many others. I do not say this to put you down, but you feel that you are not progressing fast enough. It is like climbing a tall mountain. You want to be at the top before you have a chance to leave the bottom. You are progressing very well. You must remember that it is your own spiritual body that we are functioning with and operating with and as it is now, that body is encased in solid energy, which is the physical. It is not at all easy for us to work with that body while it's encased in the physical. It would be similar to being encased in a cylinder of solid lead, so it is not easy for us to do so. You are progressing, as has already been said. Continue on. Do not try to step faster than you are capable of stepping. We will guide you, for there are many of us. For every one that surrounds this medium also surrounds all of you at times. All of you would be

- Professor: (Continued) similar to chicks that belong to the mother hen. We watch over all of you simply because our medium is very interested in all of you and how you progress. You are NEVER alone. Do you understand?
- Paul: Yes, thank you, Professor.
- Sidney: Next.
- Polly: I wonder if you have any particular guidance for me?
- Professor: Some people might not address you as young lady, but we address you as young lady, for you, gracious madam, you have lived here many lifetimes. You have helped more in the last twelve of your earth years than at any time. You do not realize it, but it is spiritual help....(Tape turned over)
(Professor waits for the signal to continue)
- Paul: You may speak.
- Professor: Thank you.
- Josef: Welcome, Professor. My question is, ..(disruption.)
(Water container spilled)
- Professor: We are waiting for your word.
- Joe: Excuse me Professor, but there was a slight accident. The question is,...
- Professor: There is talk on this side that the tide is rising.
- Joe: Yes, that's about what happened.
- Professor: If someone has to go to the bathroom, you may leave.
- Sidney: Go ahead.
- Joe: Professor, my question is, at this time my energy seems to be unstable..at times it's up and then at times it's down. I feel as though I'm going through another energy field, concerning physically and mentally, and my psychic abilities. Could you tell me what is going on?
- Professor: You must remember, my son, that you cannot function in a spiritual way unless all conditions are working in a positive manner for you. At the moment, there would be negative energy fields created within the structure of the family causing a change of vibration. You must bide your time, or, as you would hear on your own plane, you must sail your ship through the storm that you are now in. Eventually, things will level off for you, but this will still take several months according to your measurement of time. You will come out of this in a more positive manner than you can see at the moment.

- Joe: I thank you, but my second questions is: what changes are there in my workplace because I don't feel -- I thank you for the job that has been given to me -- but I don't feel as though I'm happy with it.
- Professor: You must stay with what you are doing for a while. And submit, as you call it, resumes for another job that would come up at a later date. The problem in your work place would be the low level of the people that you function with. Spiritually, they are on the lowest level of the scale. You have risen above it. You will be guided when the time comes to take another path.
- Joe: Thank you, Spirit, and I'm ready for that other path.
- Sidney: Next.
- Lisa: Do you have a message for me this evening?
- Professor: As I look at the pages of every here, you will find that the year that you are in now, the first half of the year, you will feel as if you are riding, as you call it, a roller coaster. But eventually, things will level off. You must rid your physical body of the condition that you did not really know you had, which would be similar to a virus, or as you call it, a cold. It has settled in other parts of your body, causing you to be somewhat uncomfortable and somewhat irritable and causing things to bother you. At the moment you would say to us, that you do not have any of this. But we tell you that you do. You must eat properly and take the proper precautions to rid your body of this, of which is different than what you term the ordinary cold. Then you will find as you move into the warmer weather that things are looking brighter for you.
- Lisa: Do you have any suggestions on how to get rid of this cold?
- Professor: ..We suggest that you find yourself some sassafrass tea and drink a great deal of it without adding anything to it. It will clear your system of the problem faster than anything else which you could purchase.
- Lisa: Thank you.
- Sidney: Next.
- Kent: Good evening, Professor. I would like to know more about the parallels between the two different energies of light and our thoughts, and I'd like to know if, just like light can bounce off a mirror and produce our visual reality, do our thoughts so to speak bounce off a spiritual mirror to produce our physical reality, and is this what you mean by everything we have in our world you had in your world first in the form of our thought energy?

- Professor: You are absolutely right. If you would but meditate on this yourself, since you have lived many lives, in different planets, even in the present time, you ask yourself what are you doing here? As if you are marooned on an island. It is because of the past life and the past lives and all of the experiences that you have accumulated. You are slowly rising above all of the mundane problems and conditions of your earth plane. You are coming into the realization that the world of spirit is none other than a higher vibration, and everything that exists around you now was created in the world of spirit before it was given to your world through man's mind. We have singled you out, as well as many others, ...we are going to have to ask you to pause for a moment... We do not want to break the connection...
- Tammy: Can you hear me out there?
- All: Yes.
- Tammy: I've taken over for just a minute here. I knew this was going to happen. Hold on a minute. ... Can you hear me?
- All: Yes.
- Tammy: We did it that time without hitting him in the nose. All right, just a minute, I'm going to step back.
- Professor: As I was saying, the frequency that you vibrate in on your plane and the vibrations of spirit..it would be similar to what you would call frequencies of radio..You on the earth plane now and everything around you vibrate in a very low rate of vibration. In our world we operate like at the other end of the spectrum, the higher end of the spectrum. Everything in our world vibrates so fast that you could not possibly see it unless we slow it down, but if we slow it down, then you have to increase your vibration, of which at the moment, you do not know how to do. In time, you will help a great deal of people, but you will demonstrate in a scientific way how it's possible for the two worlds to function intermeshed, one with the other. When the opportunity comes, please do not put it aside because your world at the moment is on the threshold of great changes dealing with understanding of this work. Irregardless of what others might say, there is more knowledge coming from this small nucleus that you are involved in at the moment than you could imagine. At the moment, you do not realize what we have done and what we are doing and what we will do. You will be part of this master plan, as well as the rest of the people that would be in your circle at the moment. Do you understand?
- Kent: Yes, I do, and is this what you mean by the fact that you cannot judge us, but you only produce what we think, whether it be something of beauty all the way to a nuclear submarine, whatever we think of you have to produce, because of the fact that you cannot judge us?

- Professor: This is possible. This is true. We do not judge you. You just judge one another!
- Kent: So, in other words, we just produce our own plastic society. It's not, like you said, at a low frequency it has no meaning.
- Professor: This is true. This is why you do not feel that you are a part of the world as it exists at the moment. You feel totally out of place and would want to escape. But where are you going? You must continue on the mission, of which, at the moment, you do not quite understand. You are way ahead of your time as far as intellect. You knew all of this knowledge before but because of a minor stubborn streak you did not override that until the last three of your earth years. Many doors will open to you as you go on in your present calendar year. And seven years to follow. You will understand more as you move forward. You are at the moment in a depressed state and therefore you cannot vibrate properly. You will learn to stabilize yourself and the energy around you as you reach further in the warmer part of your year. Do you understand?
- Kent: Yes, I do.
- Sidney: Next.
- Professor: We are having a little problem with energy. Just a moment. We would wonder if you could possibly help us out while we pause?
- All: Singing In the Garden.
- Professor: Thank you. The energy has increased. And if there is anyone in the group that would like a better understanding of the singing and how it increases the energy, all you have to do is ask the young man that we last spoke to and he would explain it to you. Let's continue on there.
- Katy: Good evening, Professor. I have several concerns if there is time enough to share. I want to thank you for using me as a channel for healing. I appreciate people telling me that it does come through and that it does help them a lot. I was told recently that I need some surgery. Can I take care of this with spiritual healing or do I really need it?
- Professor: You must remember, my child, that we are able to work through the surgeons on your own plane. The MINOR surgery that you are referring to is necessary. We will be there when the time comes. Do not put it off. We will work with you in the chapel as well as we will in the operating room.
- Katy: Thank you. I feel better about it now. I also have started studying numerology, which seems to be another way of channeling information and messages. Is this a good thing?

- Professor: It is most assuredly a good thing. You can talk with Mr. Schwartz and he would explain to you a lot of numbers correlate.
- Katy: Very good, because I'm really enjoying it. One other question, or comment. This past...just a short time ago during the Christmas vacation, before I went on my vacation, the channel told me, ..medium that you are using this evening,..gave me a message from a Scout and told me where to go in California to see a memorial, an Indian memorial. I went where we were told that we thought was the right place. And I do believe that it was this pile of stones that we were told was an Indian grave. Was this where we were to have gone?
- Professor: Yes, this was the place. Not too far from the pile of stones was also running water.
- Katy: That's right.
- Professor: This, most assuredly, was the location. The Indian that was, whose remains were buried there, has been with you throughout this whole lifetime.
- Katy: Thank you. Next.
- Sidney: Good evening, Professor.
- Professor: Good evening.
- Sidney: I have about three questions. I hope they'll be short enough to get them in with the energy allotted me.
- Professor: Because we ask you to be the helper of the cabinet, you're going to take advantage of the medium and throw more questions at him.
- Sidney: I'll try not. I'll be quick. In becoming aware of the philosophy of the Hunas, I'm interested in knowing, or validating the fact that the Hunas began in Lemuria and then went to Egypt. Were they the lost tribes of Israel? Did Moses understand this philosophy and then, eventually, did it end up back in Hawaii? Is that correct?
- Professor: You've got it right but you've got it wrong, my friend.
- Sidney: OK.
- Professor: You would find that it originated in Egypt and then a blending of Israel, and then eventually it went to the Islands because they were escaping.
- Sidney: They were escaping what?

Professor: They were looking for a land that they could carry out their own philosophy without being bothered by others.

Sidney: Then Moses understood the Huna?

Professor: Moses understood the Huna.

Sidney: Were the lost ten tribes of Israel...were these people that ...did they end up in Hawaii?

Professor: They ended up in one of the islands, but not the Hawaiian Islands. But eventually their offsprings...to and blended in with those people that originally came from Egypt and wound up going to the Hawaiian Islands.

Sidney: Thank you. I hope I won't offend anyone on the other side, but there is something that I don't understand. From what I've read about the Huna's--unfortunately, it's not that much, ^{yet}--but their philosophy seems to be very highly evolved, but yet I'm confused as to how the Kahunas in Hawaii practiced certain techniques of praying people to death, or human sacrifice which I don't...doesn't seem to correlate. Will you explain, please.

Professor: If you go back in your research, which you have, you would find that in your own country, going back hundreds and hundreds of years, there were human sacrifices, as well as in South America or Mexico. It was simply because at the time people understood the working of spirit, they understood the gifts of the spirit, but through their ignorance they thought that the greatest thing that they could give is their own life, to sacrifice their own life, or some member of their own family. They thought that this would raise them above everybody else. It was only due to the ignorance. You said that they were so evolved....yes, they were, and no, they weren't. They, again, thought, that giving their own life would be the best thing that they could do.

Sidney: When someone believes something incorrectly like that... do they still have a karmic debt to pay for, even though..

Professor: Yes, they do.

Sidney: ...they thought it was right? One last question, if I may..... which I can't seem to place right now. ... I guess I'm not supposed to ask it. Next.

Lee: Good evening, Professor.

Professor: Good evening.

Lee: I would like to know that..if, when I give absent healing if I'm really being effecting, and, if I'm not effective,

Lee: (Continued) how can I be more effective.

Professor: You are as effective being a beacon for absent healing as the lighthouse would be on a darkened shore. You must not question it. You have what you term a brain. You have the capacity to send out thoughts. You have the capacity to send out positive healing energy, which is none other than love. Love is the positive energy which will heal. Your energy, your healing energy, as you term it your absent healing, is taking place. You must remember, that in your world today, so many people when they become sick or they have an accident, the first thing they say is, "Oh, God help me." And when "God", the Spirit working through you, very seldom does one of them say "I have been helped. I have been healed. I'm well." So you will very seldom hearing of any of your results. Rest assured, your healing is taking place.

Lee: Well, that was my concern. I was ^{more}worried about making sure that I was being effective, not that I was asking for credit or thanks, for I don't feel that I should ask. I think that is a gift that has been given me and I should use it.

Professor: You must remember that you're dealing with energies that are invisible. And sometimes, if you can't see something, or if you can't touch it, it is sometimes hard for you to believe that it exists. But within you and every one of your own group, you are likened to that of a radio transmitter. You're transmitting energy out through the capacity that you were born with. Continue on with this. You have no reason to be concerned.

Lee: Thank you, Professor.

Susan: Welcome, Professor. I greatly..have been greatly appreciating the guidelines that you have been giving me. Can you help me to understand something that happened to me a while ago? This was back in Seattle. I was laying in a garden, and all of a sudden, I was in this whole different place, and I had been to this place many times before, but I was never allowed to remember it when I left this place. And, to me, it was like a fairy kingdom, and there were beautiful mountains, and hills, and these little fairy people, and these people were using me to feel what it was like on earth, and at that time I could feel what it was like to be them. And they communicated to me without words the reason that they are not an active part of us here on ^{the} earth is that there isn't enough sincere belief in them, and that there is still too much hardness between us here for them to want to be a part of us. And while I was in this place, I remembered that I couldn't remember this place when I left it before, and I remember squeezing this opening in my mind so that I could remember it, and I COULD remember it. Could you comment on this, please?

- Professor: The location, the actual location, that you are referring to...you would have to go back many hundreds of years to what you know now as the Islands, the Hawaiian Islands. It would be the one that you term the Garden Island. At that particular time, the channel that is now being used was the Kahuna, or the teacher, at the time, and you were merely the student. This took place in a valley where the mountains joined, and as you looked down you would be able to see the beautiful ocean. This was what you might even term a garden of Eden. But you would have to go back many vibrations ago. Many things have happened to change the face of that land at the moment. This was why you were drawn to go there in this lifetime, and when you were able to finish up what we wanted you to do, it was then that conditions came up and that you left the Islands to come back to your mainland. In time, you will have other experiences and you will see vividly any past experiences that took place then.
- Susan: Spirit, do you have any messages for me? In the present time?
- Professor: You must follow with the pattern that you have in motion at the moment. There is a reason that you are here in the group. From traveling around the globe and finding yourself in this area. We have no message other than to stay on course as you have been. Continue with your spiritual growth. Be careful on who you talk with or share your own philosophy and beliefs. They can create negative energy fields around you that would be damaging to your own self. Do you understand?
- Susan: Yes, Spirit, thank you.
- Sidney: Next.
- Robert: Professor, you answered my question; I was curious about why Susan and I had spent several years in Hawaii, and I'm satisfied with the answer that you gave her for I feel that it applies to me as well.
- Professor: It does apply to you. For if you look back in the pages of the past you would find that the both of you have been together in many lifetimes. You would also find that you were married in two lifetimes, but the lifetimes you had reversed your gender. And now, in the present time, you are drawn together because of that spiritual bond..... (No loss of message due to end of tape)
- END OF TAPE.
