NATHANIEL: We might try something a little different tonight. Finally got permission to take the boy over. And you just have to bear with us for a little while. This is a little different. The old boy wants to sit on his duff and do all the work, but now we have other plans. Having a little problem getting into the body. We got into the body mentally, but it's not too easy to get into the body physically - we're half in, half out. Like getting in a tight pair of overalls, especially those that won't fit you. Everybody here?

SUSAN: Yes, except Kent and Sid aren't here. Everyone else is here.

NATHANIEL: Well, we will just have to... hmm. If he had cooperated when we wanted him to, it would not be so difficult. It's like getting used to wearing a shoe. Boy! Has this one been stubborn! We'll make it. Well, if you will open the gate I'll join you.

SUSAN: Oh, boy! Welcome.

ALL: Welcome, Spirit.

NATHANIEL: (Lots of static) (To Florence) My blessings to you, my child. You must remember that this is a new experience for me to be able to manifest through the physical. It's always been through the mental. It's not easy to operate the body and so we might stumble a little bit. Just remember this. We have been sisters before many years ago of which you will know eventually. Flor-i-ence. Florence?

FLORENCE: Florence.

NATHANIEL: Flor-i-ence. My blessing. There is a tendency not to turn loose because we're not sure of the body. We're not sure of the body. (NATHANIEL holds hands of each one with whom he speaks, in turn, moving to his left, extending his left hand to the next person's left hand, then releasing the right hand and taking the next person's right hand). Do you understand?

My brother. (to Robert)

ROBERT: Welcome, NATHANIEL.

NATHANIEL: A little tight in this body, I must admit. We have walked together by the water. I have watched you when you had very little to eat in your belly. I gave you the comfort that you needed at the time, but yet your mind was way off into other lands. You and your friends I have been with many times. You must remember this as a little bit new. This is a little bit new. But he has been so stubborn all these years that he has not given in to allow us to use the body. He will probably be shook up when this is all over

NATHANIEL: (Continued) with when he realizes we were able to once again able to use the body. We did when he was a little child. I will talk with you, later.

SUSAN: Welcome, Spirit.

NATHANIEL: It is a pleasure that I might be able to pick up on the beautiful vibrations around you, at this time (touches the head, holds the face). We harvested grapes together. Eons and eons ago, we sat on the peak of a mountain and watched the sunset on what you might term your Isle of Capri. Capri. Do you recognize the name? Capri?

SUAAN: Yes, I do.

NATHANIEL: Someday you will go there at the highest peak of the island and there you will find ruins and you will find remembrances that will tie in with what I say.

SUSAN: Thank you, Spirit.

NATHANIEL: My child, (To Lee) you have worked to heal others around you, but no one has been there to heal you. You are now moving into a different time frame and you will understand what healing is all about. You must remember at this time that we have many gathering with us around the channel. His own father is standing in the presence at the moment. And his identification, as you would call it, would be that of a strong tobacco. We do not approve of the weed, but he uses this as his identification. My blessings, my child.

LEE: Thank you, Spirit.

KATY: Welcome, I'm delighted and overjoyed to have you here.

NATHANIEL: It is a pleasure, indeed, that I am here to touch all of you at this time. It is still quite cumbersome using the physical body. You've come a long way, my child. You have come into the understanding of true religion, without a label on it. You do understand what I say?

KATY: Oh, yes.

NATHANIEL: Proceed with your own inner feeling and let the God within yourself to guide you, for you will become a much better healer as time goes on. My blessings to you.

KATY: Thank you.

LISA: Welcome, Spirit.

NATHANIEL: I am being told that you have two names, pet names for the group, and one would be Geneva. And the other would be Lisa (with long "i" sound)

NATHANIEL: (Continued) As I touch with you, whereas all of you have walked with me many times, you would find as you go back eons ago, we were Indians. You were of one tribe and I was of another, but we were friendly with one another. You have lived on almost all of the continents on your planet. You have a great deal of changes coming up. These changes can be the best changes that you have ever had. Look forward to a large door that will open for you. My blessings.

LISA: Yes, Spirit, thank you.

JOE: Welcome, Spirit, this is a pleasure.

NATHANIEL: My brother, it has been a long time since I shook your hand, for we were brothers at another time, blood brothers, in the far off reaches of your globe. It is a pleasure that I might be here tonight to touch back with you, for this is a privilege indeed. For here we have a beautiful family, whereas our paths have crossed many times. We have gone through many storms, and, my brother, you can look at-the a sun as it breaks through the clouds, in front of you, at the moment and look back at the storms behind you, for they will not return. My blessings to you.

(to Polly) My child, it has been the way you count time, millions of years...

POLLY: Yes.

NATHANIEL: ... since we touched one another. You would have to go to that lost planet that **does not exist at** the moment, and there it was that you had seven children, and I was the oldest one.

POLLY: Yes, I remember.

NATHANIEL: You are blessed above all others of your own family. For you are still with these wonderful people in the physical, whereas many of yours have joined our world, but still live in darkness because they were not prepared to live onward as you have prepared yourself. Do you understand?

POLLY: Yes, I do, thank you.

NATHANIEL: Go on with the thought in mind that there is a God within yourself, and, as you have been taught recently, talk and command the God being within yourself to keep your body healed, and therefore you will be healed.

POLLY: Yes, I will.

NATHANIEL: You must remember that this body will do nothing unless of course you ask it to or command it to. It is activated by your own commands, your own voice. Remember what the old teacher said: "Ask, and you will receive, knock and the door shall open.

NATHANIEL: (Continued) Send your thoughts and your request inward, not outward. Do you understand, my child?

POLLY: Yes, I do, and thank you, NATHANIEL.

NATHANIEL: My lost brother.

PAUL: Welcome.

NATHANIEL: We have touched many, many lives together. Finally we have reached that period of time that we touch once again. Even though I stand here in a physical body, with his permission, it is great that I can touch back through the senses to feel and to hear and to know that you are well. We are guiding you, and I say "we," for I have gathered here tonight many of those that you and your people are not even aware of. We do not ask for recognition. It is not important as to who we are. We only come to you through the love and grace of our being to touch back with you. My blessing. We are going to ask you to assist that I might be able to go back, because the body is still unstable. (Paul and Joe assist his return to the chair in the cabinet)

PAUL: Would you like us to close the cabinet?

NATHANIEL: Things are fine as they are.

PAUL: Okay.

NATHANIEL: It is a pleasure indeed that I might be able to stop and talk with you this evening even though we are not able to function that well in the physical body. I come to you with my blessing, for things are better with the instrument, the medium, now than they have been in the past because the medium was using too much of their own energy, of trying to do too much within a given timeframe. Even though you have one of your members not here this evening we will send a great deal of healing energy to the young man and make sure that he receives this so that he would be able to return to your circle. I'm going to ask you at this time to join with me: Picture the young man in your own mind at the moment and picture a white beam of light going from your own solar plexus out to his solar plexus. Picture him standing in the middle of your group and picture that beam of light leaving your own solar plexus and going to his. Then as you picture this, picture these beams of light as if they are twisting and forming a large rope, as you would call it, and picture this of solid energy to energize and restore his body for he will be a great asset to you and to the others eventually.

It is through the permission of the channel and the permission of the Chief [Lone Eagle] that I am able to speak to you this evening. As now the energy has leveled off, we will ask that questions be directed and we will see if we can't give you some guidance. We are going to go to different ones tonight. All right!

PAUL: Florence.

NATHANIEL: We are going to choose different ones from the group to see if we cannot get a crossover of proper energy.

Josef, ("JO-SEEF") do you have any questions that we might be able to help you with.

JOSEF: Spirit, the question is: With new changes coming about for all of us and the prophecy that we have heard from the channel, how can we prepare ourselves and how can we help others through the preparations that this devastation isn't as cruel?

NATHANIEL: We cannot in any way do anything about the changes that are coming about. We ask you, as already been said to you, to prepare yourself mentally, of which you have according to your own energy field. You now must prepare yourself physically, meaning that you must within seven of your months ahead, start buying provisions that would carry you through the period of trouble. Each one of you have been selected to carry out a specific job to help others along the way. It is not by coincidence that you have the teachings of the Master on your new equipment. It was all planned at this time so that each one of you could be more educated and understand your own selves. And therefore, eventually, you would be able to be that light in the darkened world. Although you have a very small group with you, you have a very mighty group with you. If you can picture yourself out on a dark and lonely sea and, seeing that one lighthouse on the shore, and seeing how much light it gives off, then you can imagine how much light your small group will give off. We have been working with many groups all over your globe as you have been told before, you are -all part of a select group.

Do not be too concerned about what will happen, because when the time comes, we will guide you in the right pathways and the doors will open for you. Do you understand?

JOE: Yes, NATHANIEL. The questions is: With the water source(?) that will begin to happen, is there any guidance to the purification of salt water into fresh water?

NATHANIEL: There will be at that time a new device that will help a great deal in changing the contents, the chemical structure of the water so that you would be able to use it. It is only because of the reservoirs going dry that would cause all of the damage. Deep wells will still supply a certain amount of water. You will be guided when the time comes.

JOE: Thank you, NATHANIEL.

NATHANIEL: We are going to direct our energy toward Flor-or-ence.

FLORENCE: Yes, Spirit. I keep seeing the channel in a glass egg

FLORENCE: (Cont'd) in a gold chair; it is all blue inside, with a white mist floating around him. Could you tell me what this means?

NATHANIEL: It means that he is finally coming out of the box he put himself in, from being afraid and being the channel that we have been wanting him to be all these years. Don't tell him too much about sitting on the gold chair and being in a bubble because that would send him off into what you term an ego trip, and he knows better than that because we've talked to him about egos all of his life. He might just have a swelled head for about five minutes but then it will pass. Do you understand?

FLORENCE: yes, thank you.

NATHANIEL: Is there a question?

SUSAN: I have a questions, Spirit.

NATHANIEL: Speak your words.

SUSAN: I want to thank you, first, for guiding me through that astral projection experience after the last full moon meeting that we had, and I look forward to more experiences like that. I wonder if you can shine some light on my living situation?

NATHANIEL: As you have already found out, things happen with you at the twelfth hour. We will give you a little break there and you will find that the place that you will need, you will find at the eleventh-and-one-half hour. It gives you a little more time than you have had before. Not much, but a little. There will be two places that you will have to choose. You will find your place.

SUSAN: Okay, thank you.

KATY: Spirit, may I ask something?

NATHANIEL: Yes, you may.

KATY: In speaking with Josef here a few minutes ago, and saying that each one of us had a role to play in the changes coming up in the near future, could you tell us more along those lines?

NATHANIEL: If you would compare each one of you as a cell in a battery each one of you becomes the cell in a mammoth battery to create the proper condition to receive our guidance. All of you, at times, will be inspired strongly. Messages will be received by all of you simultaneously. This is yet to come. We will be practicing, as you would put it, communicating with you, and in time you will understand our teaching and how you fit in to the whole picture. DO NOT, as the channel would say, spin your wheels. The time will come when things will clear up for you. Is this clear?

KATY: Somewhat. Not fully.

NATHANIEL: We are in the throes of making better arrangements on our side to pass along to you through the channel. Give him, and give us, a little time on this because it is too soon to bring forth the direction that you need...

KATY: All right.

NATHANIEL: That should suffice.

PAUL: Spirit, NATHANIEL.

NATHANIEL: Speak your words.

PAUL: One of the things I was thinking about in, after seeing some of the videos: if we supposedly have control over our environment, and I really do believe that after, some of the information that I have listened to and read then could we somehow control our own environment in terms of this drought, or is it of such an energy that it would be very hard to do that, or we are not advanced enough?

NATHANIEL: You are not advanced enough to control this. But you must remember that this is an effect coming from your sun and this would go along almost two years of your calendar time. This is something you could not have any control of. This is something that has happened for millions of years, every so many thousands of years this happens and some place on your globe is affected by it.

PAUL: Why, why would it only affect the globe goes in a circle why would it only affect a certain why would it not go across the United States, into other areas of the globe why does it affect only the northeast, or, the Mississippi east?

NATHANIEL: It would be because of your ionosphere is already damaged. As you have heard many of your scientists say to the general public over the years, dealing with the hothouse effect, on your East coast, the ionosphere or the bubble that protects your country, is damaged. It is like an invisible bubble around your globe and it's just as if there is a split from the northern portion of your country to the southern portion of your country, and there is where this intensive light and heat coming from the sun goes through this opening to burn and to scorch, and to prevent clouds that would have water from dropping the water on this particular part of your world.

PAUL: Mm hmm. This would mean detrimental kinds of radiation would be hitting the earth, and it would cause incredible problems with our own bodies, wouldn't that be

NATHANIEL: We are sorry to say, but this is true.

- POLLY: NATHANIEL, would any other country be involved in this?
- NATHANIEL: Many countries will be affected by this. It is because of the pollution of the air year in and year out pumping the poison gases into the atmosphere. Every time that you turn on your motor-cars and the carbon monoxide poisoning rises, even though it's invisible, it creates this damaging effect eating through the bubble that protects your globe. This you have been warned about for many, many years, and yet no one has attempted to do anything about it. We do not have to tell you that a great many things happen on your globe with each and every one of you and all of the masses, and there is a great deal of cover-up. All, in the name of what you call money.
- PAUL: Would the society as it would exist after these changes I imagine there would be many other kinds of catastrophes, and other earth changes that would be happening would the society... it would not be oriented around material things and more oriented around good will and all the things as we teach them here?
- NATHANIEL: Most definitely. People will come into an understanding that they cannot be separate from the other. That within yourselves there is a linkup regardless of the color of the skin and regardless of where that person lives, there is a linkup that puts you all into the same vibratory wave length so to speak. You might call it a spiritual understanding, or a spiritual movement. It is, in a way. But there will be more peace on the earth plane after the changes than there ever was before.
- Some of you might term it as a time of cleaning house. We cannot do anything about the changes. The changes are entirely out of our hands, but you people, because we have been preparing you, you will be those that carry the beacon of light to those that are left. This, also, includes the senior of your group.
- PAUL: Is it correct that when you come into the physical body you have... there are so many senses that you have... that you don't have in the other plane that it's almost like there's so much to sense, you may lose track of the fact that you are actually connected to the other plane?
- NATHANIEL: This is true. It is a difficult thing for us to do. It is easier for us to work on the mental level, but when we work mentally and physically, we have to lower our vibrations so low that it is a very difficult for us to operate. Therefore, we would have to draw a great deal of energy from our own engineers from our world, energy that you do not understand at the moment. This energy is created by thought.
- ROBERT: Spirit.

- NATHANIEL: Speak your words.
- ROBERT: I was awakened from dropping off to sleep by the word or the name Aranazolis, and the channel suggested that I ask the next time we were together, the significance of it.
- NATHANIEL: You would have to go back 3,755 of your earth years in what is known as Peru, and there you would have been taught by a master of that name. This master appeared on your path as you were going down to the spring for water, as you were going down to fill your gourd with water. This being approached you on the path, being with white skin whereas yours was black. And after that period of time you spent many days together as he was teaching you what you would eventually have to do and so, therefore, you carried out his teachings to your people.
- ROBERT: Thank you. The same evening I also saw blue, blue water and islands and clouds very, very clearly. What did that mean to convey to me?
- NATHANIEL: Eventually you will relocate in another part of the world and it will bring about a better life for you. It will not be for at least seven of your earth years before the opportunity presents itself.
- ROBERT: Thank you.
- LISA: Spirit, I would like to ask: Recently I have experienced a lot of energy changes and I've noticed changes in my healing energy. Could you explain what's going on?
- NATHANIEL: You are moving, my child, through a higher vibration than where you were operating in for such a long time. You will stay for a while in the vibration you are in now and then move onward into still another. You would have to see the calendar year you are in now go by and then in the seventh month of that new year you would see changes, feel changes and be very much aware of other aspects of your healing ability.
- LISA: Thank you. I would also like to ask something of a personal nature. Recently I have initiated a lawsuit and I feel, I'm not sure if I should go through with it, or if this would work out.
- NATHANIEL: We recommend that you do not carry this out because the after effects would linger on and cause problems down the road. What you would gain would not be worth the loss.
- LISA: Okay, thank you.
- LEE: Spirit, I have a question.

NATHANIEL: Speak your words, my child.

LEE: It was mentioned the other night that Admiral Byrd had seen a lost (I guess you would call it) civilization at the Pole that he was exploring at one time. Can you...

NATHANIEL: What you are referring to is the Inner World of which very few of you know anything about. You would have to go back millions of years ago when the earth was overrun by animals, beasts, and it got to the point that they were consuming and eating all of the people. The few remaining people left, found a refuge in an Inner World, and this is where they went. There's a large opening through this Inner World, which would be on what you term the polar caps. By the melting of the polar caps in the coming years the opening would take place at the very moment that you speak, there would be space ships coming out from this world and circling the Outer World. This has been going on for many, many years. The civilization that we are referring to, is far ahead of yours, whereas they have put all of their energies into technology, using thought processes far beyond anything that you could imagine. Those beings that live in the Inner World utilize every cell of their brain whereas your race do not. You will learn more of this as time goes on.

LEE: One more question. Will they be helping us with the coming changes?

NATHANIEL: They will be helping you, but your civilization is not necessarily [one of] those that are being willing to be helped. Too many of your people are out to destroy anything they do not understand, to use their guns and weapons.

PAUL: Spirit, hold it a minute (changing tape)

NATHANIEL: I will pause.

PAUL: Continue.

NATHANIEL: Your world is far from being civilized. However, as you look around you, you feel that with your technology and with all of your advances that your world is very, very up to date. It is up to date according to your own mental capacity, but as far as we are concerned, your world operates in a level that would be equivalent to the Stone Age. You have not progressed very much. Many changes will take place from the period of your moment for the next five to seven years so many changes will take effect that it will be difficult even for your scientists to know what is happening. But you people who are coming into a new understanding dealing with opening your own minds, you will have the answers and you will know. It will not be a mystery to you, but you will understand.

- LEE: Spirit, are any of these people amongst us now?
- NATHANIEL: Yes. You will know about this in your next four to five years.
- LEE: Thank you, Spirit.
- SUSAN: Spirit, I have a question, more about opening our minds to the unlimited thought. Ramtha gave us the command. Is there anything else we can do besides the command to open up our mind to unlimited thought?
- NATHANIEL: Use the command, or the affirmation if you want to call it that, and use it in the verbal tones, by saying:

***Lord God of my being, awaken within me that I might see in the far off reaches of time and that I might hear the celestial music of the spheres.***

If you keep repeating this over and over, three times of your daylight hours, eventually that part of you that has not been functioning will open up. You must remember that your society has closed your minds. You have been operating with just a very small portion of your brain from birth to death, never being able to take advantage of the wondrous things that are there for you unseen in most cases. You all have clairvoyant vision. You all have this second sight. You have blinders on those second eyes, simply because of society. Those blinders were put there by **thought**, by the teachings of the past. Get rid of the drapings, the blinders, and be free. Society has taken a lesson from the Egyptians, as they would wrap their dead in all of this cloth, one layer after another. Your society has taught you mentally that so many things do not exist and therefore you have wrapped your own self. You must get rid of all of the drapings. You must come out into the light and **know that you are unlimited. Remember that! Unlimited**

There is nothing that will escape you once you reach that point. The channel that we are using right now has been very close to being unlimited. He has not used his potential because of his hang-ups as you call it dealing with his past, and dealing with the prejudice against the work that he has been doing. But we are bringing him into another school and that school has just been entered just a short while ago. And as he continues to move about in this new school of thought, all conditions will clear up and the past will be gone and the future will be clear. He is now operating in a better body physically than he has been before because he has finally given in and carrying out our advice, our teachings, simply because he had to see someone else doing it first, such as Ramtha.

NATHANIEL: (Continued) All of you can benefit a great deal by observing and following the instructions of this great teacher Ramtha. If you would compare Ramtha to my own self, Ramtha, Ramtha would be on the highest of high, where I would be probably rated one-quarter of the way up the ladder. We are taught by Master teachers like Ramtha on our own side. It helps us when we lower our vibration to help those like yourself back on the Earth plane.

PAUL: NATHANIEL

NATHANIEL: Yes.

PAUL: Is it correct that you can learn spiritually a lot more on this plane than you can on your plane? In a certain amount of time, or...

NATHANIEL: It is very important that you learn as much as you can while still encased in the flesh body. As you learn this, as you open your mind, as you understand that this is just a transition, then it becomes easy for you to make that transition from the physical matter into spirit. You must remember that everything is controlled by thought. If you go from birth to death believing in man-made dogmas and believing that when you die you would go to someplace and wait and wait and wait for someone to come along with this huge book and then they look up your record and there they tell you whether you either go upstairs or downstairs. This is absolutely man-made nonsense to control your people. Our world is overcrowded with the fanatics that did not prepare themselves, and every person that comes along and tries to help those that have passed on over here ...these souls believe that we are the evil one in disguise they therefore, they are wasting their precious time instead of enjoying paradise, they are still asleep. Those of you that remove the dogmas and creeds and all of the man-made rules out of your mind, when the time comes that you close your physical eyes, you will open your spiritual eyes and you will step right into paradise. It is paradise on this side. It is not paradise for those that come here with a closed mind. It is Hell for them. They have created it themselves.

PAUL: Then this would be our mission in these coming months, it would be at least to give somebody some idea of what comes after death, or try to plant the seed so that when the time comes for many of these people, they will be at least some what prepared so that you may work with them when they go to the other side?

NATHANIEL: It is more important than you know at this time.

PAUL: Mm hmm. Is this problem on the other side... is that creating the earth changes? Is that part also of the earth changes because of this tremendous amount of people, or entities, that are limited and that are holding back the whole system?

NATHANIEL: It is negative thought, which is creating an imbalance, and this negative thought is created by your society. It is

NATHANIEL: (Cont'd) created by man and it is created mostly by the theologians in your present time, and it is going all the way back for 2,000 years. It was bad enough before that period. Your world is totally out of balance because of the amount of negative energy that has been created. Remember, as we have already said, everything is controlled by thought - thought is energy, both positive and negative. It is totally out of balance because of the buildup in your world and in our world. Some of you, perhaps, might often times think why would someone so highly evolved, living in paradise, why would you lower yourself to come back to all the garbage and help us out of the sewer. It is because we love you. We love you in a way that we can't even begin to describe. You are part of us. If you could picture I am a cell and you are a cell and at one time we were together as one unit, the cells have now separated. I only learned to love when I came into this new kingdom. I really did not learn to love on the earth plane. So many of you don't even realize what love is. So many of you are even afraid to even **think** of love. It's something that somebody else might do, but none of you realize what love really is. Love over here is unlimited. We have taught this channel what love is. He knows, but he's quite reserved because of the misunderstandings of other people on your plane. He cannot even express his love to anyone without somebody attaching something to it. We often watch him when he wants to hug somebody, be it male or female, in a way to show sincere love for that person, but yet he hesitates to do it because someone would attach sex with it and this is the society you live in. Over here we not think along those lines. Your world has a lot to learn.

JOE: NATHANIEL, I have a question.

NATHANIEL: Speak your words.

JOE: I would like to know if this new energy change within me why is this new energy change surfacing? I want to give more of myself in the healing process, in the healing ministry for the things, and for the people I've seen, cancer victims and stuff like that. I feel this outward energy just ... and the willingness to help.

NATHANIEL: It is a strong desire within the god being of your own self that reaches out to touch the god being of others. This would have happened to you before, but because of personal problems around you, that alone hampered you a great deal. As you use the term flow with it, or go with it, continue to do so and you will continue to develop. Follow your feelings because your feelings are those from spirit, but always be careful of those you reach out to help, because they can have daggers in their hands. There are a great deal of fanatics there that will not accept healing of any sort. You have more people on your plane that worship the devil than you can imagine. Those people that have that entity in their mind are, actually those that worship the devil, regardless of what label they are under, whether it is any of the man made religions or not. If that is the entity they are

NATHANIEL: (Cont'd) constantly talking about, **that is the one they worship**. So be careful when you reach out to help. Your hand can be cut off. Reach out to those that really are sincere and will accept. The other: cast not your pearls upon the swine.

KATY: NATHANIEL, if there is enough energy I have two concerns to bring to you.

NATHANIEL: Speak your words.

KATY: Earlier, just this evening in a conversation with the channel, and last night, he was very concerned about one particular person of the church with very negative thoughts about herself. He needs to find her and help her. Can you direct him?

NATHANIEL: This will be done in the 24 hours ahead of your time. We have already sent out our helpers to bring this about.

KATY: Great. And, I had a brief vision last night that I discussed with the channel. Was his interpretation the correct one?

NATHANIEL: It was absolutely correct. In time **you** will understand who the other person is.

KATY: **Oh**. In time to prevent any negativity?

NATHANIEL: Yes. Most definitely.

KATY: OK, thank you very much. And one more thing: in describing this Inner World to us, and its existence and in what the channel told us last night **also** about it, if there's no coincidence in this life, if everything is planned, then the fact that I read something along these lines by an author, Edgar Rice Burroughs, does that mean he **knew** something about it?

NATHANIEL: He **knew** something about it.

KATY: Oh, boy!

NATHANIEL: There are a lot of people on your planet, both present and in the past that had reached the stage of opening more of their chambers of the brain. A great deal of the writers that you have, have more chambers of their brain **open** than those who do **not** write.

KATY: It's not just imagination then, they really know.

NATHANIEL: It is **not** imagination.

KATY: Very good. Thank you.

NATHANIEL: It has been a great pleasure that I might gather with you at this time.

PAUL: Do you have a message for the channel?

NATHANIEL: I feel at this moment that it's only wise that we release the channel and so that he can come back and that way there would be no energy drained from him. Quite often we overuse the channel when conditions are not as good as they should be. But you have created conditions at this time that make it possible that we can leave the channel and the channel will **not** have lost any energy.

RESPONSE: Thank you for coming.

Thank you very much.

Thank you.

Thank you, Spirit.

NATHANIEL: We bless all of you from our side.

RESPONSE: We welcome you all.

Thank you.

And much love.
