	<p><i>November 28, 1977</i></p>	

I am Iscomar.

Once again I have been asked to speak through the channel from the far reaches of deep space. I, too, lived on your earth plane approximately 25,000 years ago. I am in a galaxy that is unknown to your people. You have not and will not be able to travel in these far reaches of space, while you are in the physical body; but after you have made the change and you become the etheric body. Then you can reach out and travel in the far distant spaces.

Many changes are coming about on your earth plane. Many channels are being used to bring the truth to your world. The truth has been held back for hundreds of years, according to your calendar of time measurement. But you are on the threshold of great knowledge, of great understanding, pertaining to another existence beyond that which you are familiar with. You will understand and learn more about our worlds as you continue studying and meditating; reaching out to touch our rate of vibration. You are all receivers. You are all transmitters. We are constantly bombarding your planet's people. Many of you are not attuned to our rate of frequency. Many of you feel it is your imagination, and not from an outside source. This we are sorry that you feel this way; for it only prolongs the work that we are trying to do always.

A bright light will appear in the heavens from an unknown source with in the next two years, according to your calendar. This light will represent another planet. For we have been able to master certain energies that you could not even conceive at this time; for we are hundreds of years ahead of your people in our technology.

But we come to you in peace. We want to see peace on your planet. Before you destroy yourselves, you must all unite. You must all do this before it is too late. It is through the meditation groups; such as you are a part of now, that will bring the world closer together; closer to harmony, and closer to understanding.

Many of your scientists are coming to break the barriers, to prove to you that there is an existence beyond what they ever could have dreamed existed. They are now touching our fringe edges. There are many things that will come to light through the minds of these people on your planet.

Listen, take heed. Four different people on your planet are being used at this time to try to bring peace. But there is too much resistance. They are not being trusted. It is unfortunate that this is so. Before eight years of your calendar time goes by you will see and hear of many things completely unknown to anyone on your planet at this time, that you are hearing my voice through the instrument.

Do not give up. But try to help others see the way and the light. I will return. I leave you in peace.
